"GO IN PEACE."

Hark the sounds pealing bells,
Ah, the tales their music tells
Happy hours forever gone
Happy childhood, peaceful home—
Then a mother on her smiled
And a father owned his child,

Love and hope and joy are dead,
Not a place to lay her head,
Every door against her sealed
Hospital and Pottern field,
There stands open! wider yet
Swings perdition's yawning gate,

Oh that her sad life might end,
Oh that she might find "One Friend;"
One who would not from her turn,
Nor her prayers of sorrow spurn,
Oh that she that Friend could know,
He would pitying look on her so.

From the blessed far off years,
Comes the story of her tears,
Whose sad heart, with sorrow broke,
Heard the words of love he spoke
Heard Him bid her anguish cease,
Heard him whisper "Go in Peace."

Book Bound in Gold and Silver.

The only gold and silver bound, diamond incrusted book in the world was lately enshrined in the holy Mohammedan city of Isnan-Luza, Persia. The book is, of course, a copy of the Alkoran, and is a gift from Abd-ur-Rahaim, Emir of Afghanistan. The covers of this unique volume, the sides of which are nine and one-half by four inches, are of solid gold plates one-eight of on inch in thickness, lined with silver sheets of the same thickness.

The centerpeice, as well as the corners, are symbolic designs wrought in diamonds, rubies and pearls. The center figure is a crescent, with a star between its points the whole design being composed of 106 small diamonds, 167 pearls and 122 rubies. The diamonds on each corner, which are almost hidden in their golden setting, and the orange-colored lacquer with which they are fastened, are each worth about $5,000. The book itself is on parchment, entirely written by hand. It is valued at $125,000. There is sail to have been over 100,000 visitors present in Isnan Ruza the day the holy relic was enshrined.

The World's Fair Tests showed no baking powder so pure or so great in leavening power as the Royal.

Married a Cherokee Girl.

Raleigh, N. C., June 25.—A few days ago the engagement of A. G. Barier, a well-known architect of this city, and Miss Rachel Blythe was announced. The latter, a half-blood Cherokee Indian, but is highly educated and accomplished. Her mother was a full-blooded Cherokee living in the western section of this State. The daughter has moved in good society here and was the official stenographer at the last State Convention of teachers. Her father was a man of some prominence and was a member of the North Carolina Legislature for several terms. The daughter, after her father's death, became the ward of the late Major J. B. Neathery of this city, a prominent Mason, and she was principally educated at the State Masonic Orphan Asylum at Oxford, N. C. She has been a welcome social visitor at the houses of leading people.

Now comes the strange part of the story. When the wedding day approached, a legal friend of the prospective bridegroom advised him to have the ceremony performed outside of North Carolina, as there was an old law which would affect the legality of his marriage to a person of Indian descent in this State. Accordingly, they went to Washington, D. C., where the ceremony was duly performed last week. When they were getting ready to return to make their home in Raleigh, an examination into the law disclosed that they could not live here as man and wife without subjecting themselves to indictment, as the law absolutely prohibits the marriage of Indians to the third generation inclusive, and whites in this State—that is to say, even the children could not legally marry white people in this State. This provision is, however, simply statutory and not constitutional (as is the case with the law prohibiting intermarriage between whites and negroes to the sixteenth degree), and the marriage of Ms Barier and Miss Blythe can be legalized by the Legislature, as will probably be done. But, as the Legislature will not meet again until January, 1897, they will be compelled to make their home elsewhere for the next year and a half. The attention which this case is attracting and the law works to these deserving and popular young people will probably lead to the repeal of the law.

What to Teach Boys.

A philosopher has said that true education to boys is to teach them what they ought to know when they become men.'

1. To be true and to be genuine. No education is worth anything that does not include this. A man had better not know how to read—he had better never learn a letter in the alphabet, and be true, genuine in intention and in action—rather than be learned in all sciences and in all languages, to be at the same time false in heart and counterfeit in life. Above all things, teach the boys that truth is more than riches, more than earthly power or possessions.

2. To be pure in thought, language and life—pure in mind and in body.

3. To be unselfish. To care for the feelings and comfort of others. To be polite, to be just, in all dealings with others. To be generous, noble and manly. This will include a genuine reverence for the aged and for things sacred.

4. To be self-reliant and self-helpful even from childhood. To be industrious, always self-supporting at the earliest proper age. Teach them that all honest work is honorable, and that an idle life of dependence on others is disgraceful.

When a boy has learned these four things, when he has made these ideas a part of his being—however poor or however rich, he has learned the most important things he ought to know when he becomes a man.

Neuralgic Persons
And those troubled with nervousness resulting from colds or overwork will be relieved by taking
Brown's Iron Bitters. Genuine has trade mark and crossed red lines on wrapper.

Stay in the Country.

The constant influx of the girls from the country into large cities brings with it portentous dangers and evils. Dreaming of an easy time, good wages, a better wardrobe and more congenial companions; dazzled with the vision of city amusements, and hoping perhaps to find a marriageable partner and settle down into a comfortable city home, thousands leave the farm or the village and flock to the metropolis. Here many of them confront a situation far different from that which they imagined in advance of their actual experience of city life. The wages they get are meager; their lodgings are far from comfortable; they have no home life; they face new temptations and trials, and their life become one of hardship and trouble. In the store, factory, shop or office they are beset with danger and annoyance, whilst all about them are pitfalls spread for unwary feet. Some of them, with unusual aptitudes for stenography, typewriting and kindred occupations, or with fine executive gifts, make their way to the top and secure first-class posts; but a great multitude struggle and almost starve on $5 or $6 a week. This latter class are not able to save any money; a week's illness brings them into debt, and a month without employment renders them objects of charity. How much better would it be for most of them were they to stay at home, help in the household, or accept such work as might be available on the farm or in the village. Our large cities now contain thousands of girls in a sorry plight, either without employment or struggling for bread; girls who might have remained in comfort at home, or who could have found work of some sort in a country town to support them, with less cost of strength, nerve power and vital force—to say nothing of the dangers which now beset them in the city. What a kindness it would be to thousands who are helplessly planning to rush cityward "to find something to do," could a persuasive word reach them and say: "Better stay at home."—Exchange.

Home is pleasant only as we make it so. The humblest cottage may contain more pure happiness and love than the finest mansion. Out of the wealth of the heart springs that cheerfulness that makes all about us happy. Worldly wealth cannot secure it; it is the reward of a pure heart and a clear conscience, of the knowledge of right doing and upright living. Such happiness is worth all the millions of a Crossus.

For a small wager a poor fool in Philadelphia, the other day, offered to drink a bottle of whisky in a specified time. He won the wager and the question now arises, to whom is the wager to be paid? He got off the earth in such a hurry that the other fellow couldn't pay him, and does not want to follow him.

A millionaire named Baker, who died in Brooklyn a short while ago, was probably one of the most vindictive men of whom there is any record. He said he hoped that after death he would be transformed into a mosquito in order that he might come back and annoy his wife. Inasmuch as the mosquito season is at hand, the cold blooded fiendishness of this wish can be appreciated.

Bucklin's Arnica Salve.

The best Salve in the world for cuts, bruises, sores, ulcers, salt Rheum, Fever Sores, Tetter, chapped Hands, Chilblains, corns, and all skin Eruptions, and positively cures Piles or no pay required. It is guaranted to give perfect satisfaction or money refunded. Price 25 cents per box. For sale by E. C. Cartledge Druggist. May 17, 95 1y.

Dahlonega Signal.

DAHLONEGA, JULY 5, 1895.

Entered at the Dahlonega, Ga. P. O., as second class matter.

Two or three persons were killed near Fort Worth, Texas, last week by a cyclone.

Three thousand people attended the sunrise prayer meeting on the Lookout mountain the 29th ult.

The democrats of Kentucky have nominated for Governor P. Wat Hardin, a pronounced free silver advocate.

At Enid, Ok., city Marshal Williams and R. W. Patterson, land office register, shot each other dead on the 26th ult.

Four bicyclist recently made the trip from Knoxville, Tenn., to Washington, a distance of 600 miles in twelve days.

The report the U. S. treasury just made shows that the expenditures have been $43,560,000 more than the receipts.

During a storm at Jacksonville, Fla., last week a bracelet was torn from a lady's arm by lightning and an oil stove was lighted.

A farmer near Americus has recently sold $6.50 worth of plums from a single tree in his orchard, and has several trees yet loaded with fruit.

The largest peach orchard in the world is in Houston county. It contains over 100,000 trees now four years old, and this year is bearing a heavy crop.

At a picnic in Casey county, Ky., James and John Crocket killed a man by the name of Kidd the other day and then beat his head into a jelly with the handles of their pistols.

Judge George Gober of Marietta is making a success of grape culture. He has an acre of vines heavily laden with fruit. His vineyard is splendidly kept. He has forty-five varieties.

Will Mixes has been sentenced to be hung on the 2nd day of August. The hearing for a new trial has been set on the 29th inst. If a new trial is refused the case will go to the supreme court.

At Grove City, Fla., on the 25th ult., Mrs. Richard Talbot was carried out into the Gulf by a huge tarpon. Her husband was fishing in a boat and he rescued his wife as she was dragged past by the fish. The lady was not seriously injured.

Gov. Morton, of New York, has pardoned Mary Druse, who is serving a life sentence in Auburn for the murder of her father in Herkimer county ten years ago. Her mother was hanged as the principal in the crime. She murdered her husband, boiled his remains and fed them to the hogs.

A queer caravan passed through this city Tuesday. It consisted of a man and family with a team who had traveled from Oklahoma Territory. They were bound for their old home in North Carolina. The company had a cow with them, and the long pilgrimage had so worn the animal's hoofs that it was necessary to have her shod on reaching this city.—Gainesville Cracker.

Over in Sumpter county a lady took her little six-year-old boy to church and heard the story of the Savior on the cross. The next day her attention was attracted by the squalling of her baby, and on investigating she found the six year old busy trying to nail the baby to a rough wooden cross he had made. "I was just trying to make the baby good," explained the little crucifier.—Moultry Observer.

Here is the way Debs is being punished for contempt of court in the jail at Woodstock, Ill.: "He takes all of his meals at sheriff's own table. He is attended by a stenographer and typewriter. He has a little gymnasium rigged up in his cell, and has organized a debating club among his fellow prisoners." Debs is probably the president of the debating club, and decides every day that the federal court and government are outrageous institutions.—Sav. News.

The eastern part of Haralson county is stirred up over a most outrageous attempt of Ben Carroll, colored to assault Mrs. Wash Sanders, wife of a respectable citizen of that county Monday of last week. The negro laid in ambush near the spring, but she carried a bucket of water and out-ran him to her home, 200 yards distant. Sheriffs Bullard and Johnson were sent for and succeeded in capturing Carroll Tuesday. He was indentified by Mrs. Sanders, but denies the charge.

Local Dots.

Dr. Jones requests us to state that the board of education will not meet until Tuesday the 9th inst.

A fine ten pound boy is now the guest of Mr. John R. Graham, residing at Wimpy's mill, which made his first appearance there last Sunday.

There are evidently hog thieves about. About a month ago a fine red Jersey was missing from the editor's hog lot. Tuesday two fine ones were missing from John Marlows.

Quite a large number of our citizens attended the spelling bee at the college Thursday evening, participated in by public school teachers and all others wishing. Mr. A. W. Cain, of Porter Springs, proved himself to be the best speller for the evening, and Miss Mattie Gurley, of Dahlonega, next best.

Last Saturday while Mr. Marg Grizzie, his daughter, son and another lady were working in the field near Porter Springs, a flash of lightning knocked them down and they lay unconscious for some time. The horse, which Mr. Grizzle was plowing, also fell at the same time. All have recovered and are now following their daily occupations.

John Redmond's attending physicians having announced this week that his injuries from the recent shot had recovered sufficiently for him to be safely removed to town Sheriff Pruitt, in company with Marshal Anderson and Constable Rickets of Crumby's district, secured a hack and went down after him, last Wednesday. Redmond didn't come but made an $800 bond for the assault with intent to murder case against him and $200 for the misdemeanor. Mr. A. C. Crenshaw, of this county, and Mr. Arvil Keith, of Hall, signed the bonds.

If there ever was anything in Dahlonega that needed the attention of the town council it is the side walk via. SIGNAL office and a portion of the one beyond the post office on the corner. They are so full of uncovered stones that people mostly have abandoned them and walk in the middle of the road. In the early part of the spring these stones were hauled more than a mile at an expense of two dollars per day and thrown on these walks where they have lain unmolested ever since. They range in size all the way up from a marble to eight pounds. The weeds on the edge of one of the walks are 12 inches high. Should a rattle snake happen to pass from the mountains through Dahlonega on a journey it would be most sure to take at least a weeks recreation and rest among the rocks and weeds on one of these so called side walks.

Some of the teachers attending the Institute this week, express themselves as being displeased with the present school law. They say that it is not just for them to stand an examination and be compelled to answer questions that cannot be given by all county commissioners and each member of the board of education. They claim that the commissioner and board should be compelled by law to also stand a rigid examination so as to enable them to be teachers superiors instead, as is often the case, some teachers are their superiors. This will certainly give some food for thought in our county, as we have a colored teacher graduate of a college, attending the present session when neither the commissioner nor either member of the board of education are graduates of any high school that we know of. All of them are good honest, highly respected citizens, but being mostly men of limited educations.

Mr. O. B. Thompson Dead.

It is with a sad heart and deep regret that we have to announce the very sudden and unexpected death of our life-long friend Mr. O. B. Thompson, which occurred in Gainesville early Tuesday morning. Before Mr. Thompson retired he complained of slight pains in his abdomen, but nothing was thought of it. About twelve o'clock he asked for some medicine, but before Mrs. Thompson could get it and reach his bedside he was dead.

The deceased was about seventy three years of age—born and lived in H all county all his life. He was one of Hall's most prosperous farmers, an influential citizen and had a host of friends on every side, all of whom join with us in extending sympathy to the bereaved relatives in the loss of this good man.

Program Temperance Meeting.

Will convene at Baptist church Sunday 14th inst. Singing, voluntary, choir. Scripture reading, Col. W. P. Price. Prayer, Rev. J. W. Kytle. Singing—Solo, Miss Birdie Meaders. Anti-bar room bill, Rev. W. A. Parks. Recitation, Miss Julia Blackmer. Reading, Miss Alice Roberts. Singing, Solo, Prof. C. M. Gordon. Address, Prof. A. W. Meaders.

Song—Choir.

Business matters.

Benediction.

Bob Beck in Jail.

Last Saturday after noon Squire Norton convened his court for the purpose of trying Bob Beck, who was charged with breaking into the house of Mrs. Lawrence a few nights previous. Bob secured a couple of lawers, put on a starched shirt and rigged himself up more like a clown preparing for a performance than any thing we can think of at present, making a bad impression with the court—doubtless to his disadvantage. At the appointed hour the defendant appeared at the court room door in a very graceful manner smoking a two-for-a- nickle cigar. He wore a Prince Albert coat, standing collar and calico tie, with socks, shoes and pants equally as attractive. When the case was sounded some objections were raised to the warrant by his attorneys, which were overruled and the case was postponed until Monday so as to secure the services of a stenographer. Before the time for the trial arrived Mrs. Lawrence withdrew this warrant and swore out another one for malicious mischief, which trial was set for Wednesday, when the defendant was bound over and sent to jail in default of a $50 bond. The prosecutor was represented by Mayor Harbison and the defendant by Messrs. Lilly and Hutt, each and every one making very able speeches in behalf of their side of the case.

Dahlonega Mayor's Court.

Mayor Harbison had a considerable amount of business before him Tuesday evening. Five different parties were charged with refusing to perform street duty and the cases were disposed of as follows:

John Brookshier, Jr.—Put in a plea that he was a little sick at the time he was warned to work, but as he made no effort to prove it was sentenced to pay a fine of one dollar and cost or work in the chain gang.

Bascomb Watts—Plea of guilt. Received same sentence as Brookshier.

Floyd Brookshier—Was warned on Sunday by the marshal. Defendant was discharged as the law has set apart six other days to transact business.

Abe Anderson, col.—Stated that at the request of the marshal had watched the town at two different nights with the hopes of catching some robbers, and thought it would be placed to the credit of his street tax. But the marshal had credited a private account which Abe was due him and this left the negro in the suds about his street tax. Abe had done some other work but he didn't know how much street tax he was due, neither did the marshal. But Abe's failing to appear when summoned let him in for the turkey and he was put in the same boat with the first two defendants.

And last but not least, Robert Beck, who is well known in court circles, was ushered into the presence of the mayor by a special policeman and ordered to take a seat. When all the other cases were disposed of the Mayor gave his attention to Robert, who was charged with the same offense as that of the others. Bob was not as well off as the darkey. He had not performed any detective duty, done but one days work and had also failed to show up when warned. He claimed that he had a sick shoulder the reason he didn't come but this plea did him no good and he met the same fate as the rest.

Court then adjourned.

NIMBLEWILL NURSERY, Lumpkin County, Ga.

MY Nursery is situated 11 miles west of Dahlonega. I have made a careful selection to get best varieties of fruit, something that will bear full and regular and keep well. Every variety of fruit I am growing has all been tried and found suitable to this climate. All persons wishing to purchase will please send in their orders. I will make it to your interest and will give each order prompt attention.

G. N. PITTS, Proprietor.
Nimbi, Lumpkin Co., Ga.
July 5, 1895 1y.

Program of the Sunday School Association.

The following is the program of the Lumpkin County Association to be held at the Dahlonega camp ground on Saturday, Aug. 3, 1895:

Delegates will assemble promptly at 10 o'clock, a. m. Roll of delegates called.

Singing by the children of the various Sunday Schools.

Prayer by Rev. John W. Rider.

Recess for dinner at 12 o'clock.

AFTERNOON SESSION.

Election of officers.

The following subjects will be discussed unless others are suggested:

1. The best way to keep up Sunday Schools in winter time.

2. What inducement should be offered to scholars to attend regularly.

3. Qualification of teachers.

4. Recitations by pupils will be interspersed during the exercises as often as may be deemed best.

Each Sabbath School is entitled to be represented by its Superintendent and Secretary and one delegate for every 25 scholars, and one for every fractional part of said number.

The various Sabbath Schools of the county are requested to attend *en masse* and come prepared with lunches, fruits, etc. It is intended to make the occasion one of pleasure and profit to those who may attend.

N. F. HOWARD,
July 3, 1895. Pres.

Free Coinage Explained.

A subscriber in Black Rock, Ark, asks The Republic to explain in precise terms what is meant by free coinage.

Free coinage of gold now exists. Any private person can take gold bullion to the mints and receive in exchange a coined gold dollar for every 253 grains of standard gold in his bullion. If his bullion is above standard the mint officers may charge for the alloy. Free coinage of silver would be similar. Any owner of bullion could have it coined, or receive in exchange a coined dollar for every 532 1 2 grains of standard silver in his bullion, and the coined dollars would be unlimited legal tender.

Our correspondent asks also whether it is true that silver dollars drift back to the Government's vaults, and why they do; and how the Government gets them into circulation.

It is true that silver dollars drift back to the Government's vaults. The reason is that Americans are averse to keeping on hand bulky coins in large quantities. Silver dollars are receivable for Government dues, and the Government must take them when offered by its debtors. The Government gets silver dollars into circulation by paying them out to its creditors being, of course, its civil employes, contractors, pensioners, soldiers, sailors and others to whom it undertakes to pay money.

Another correspondent asks a question which may as well be answered here. It is whether, in case we adopt free coinage at 16 to 1, all the silver in the world could be "dumped" upon us.

There is a difference between the coined silver of France, for instance and that of Mexico. The coined silver of France would not be shipped here because the coins are maintained at a gold valuation, just as our silver coins are maintained under our present laws. France has not coined any silver for nearly 20 years, and its silver coins are regarded as token money passed on a large gold stock.

Mexican dollars would hardly be "dumped" upon us, but Mexico is a great bullion producing country and undoubtedly could, unless we adoted a prohibitive silver tariff, "dump" a very large amount of silver in that shape into the United States and have it coined into legal tender dollars.

If our adoption of free silver coinage raised the value of the silver dollar here above the value of an equal amount of silver in the coins of Mexico, then Mexican coined dollars would, in the absence of a tariff, be converted into bullion and forwarded to our mints.—St. Louis Republic.

The late Secretary Gresham was an astute lawyer. His last will and testament was written in about six lines, and said in as few words as possible that Mrs. Gresham was to have everything absolutely, and was to execute the will. The estate left by the secretary is worth about $51,000.—Sav. News.

Keener, the Rabun county murderer, is now in Hall county jail.

RABUN CO'S MURDERER.

Full Particulars of the Bloody Deed Which Took Place a Few Days Ago.

We clip the following account of the recent Rabun county murder from the Franklin (N. C.) Press of 26 ult., which is more fuller than the one given in our last issue—supposed to be correct:

"The news of an awful murder of two young ladies in Rabun county, Georgia, reached us Monday. On last Sunday evening about sundown on Wolf Fork in the Tennessee Valley it took place. The victims were daughters of Mr. John Moore, and the perpetrator of the deed was Wm. S. Keener, aged 28 years, a young man who has ever before borne a good character and was not given to drinking, and seemed to be of a peaceable and quiet disposition.

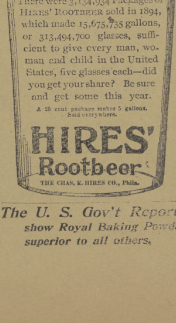

The names of the young ladies were Leona and Arizona Moore. A year or two ago Keener courted Miss Arizona and sought her hand in marriage, which was refused. He had threatened on several occasions that if she did not marry him he would kill her, but not much attention was paid to his threats. On last Sunday Mr. Terry Dickerson's daughters, relatives of the Moores, visited them, and late in the evening when returning home, three of the Moore girls accompanied them part of the way. As they were returning home about sundown, Seymour Keener came out from the bushes where he had been concealed with a pistol in his hand, and said he was going to kill Arizona. The girls laughed at him, thinking it was all a joke, but Leona, seeing him cock his pistol, threw herself between them to protect her sister and was shot through the body. Arizona realizing the danger jumped over a fence and started running and screaming through the field towards home. She was followed by Seymour who ran in front and fired a ball into her breast, killing her instantly. She fell on her face and then he fired six more shots into her back as the lady lay on the ground.

Several young men, all relatives to the parties were attracted to the scene by the shooting and took charge of Keener as he had commenced reloading his pistols. On him were found two pistols, a razor, and a pocket knife. In his pocket was $193.10 in money. He had his clothes hid out and told where they were after his arrest. He also told his cousin, Loge Dickerson, where he had two bottles of whiskey hid, but told him not to let anybody drink from the bottles as the whiskey was poisoned. He was taken to jail at Clayton, where the jail is strongly guarded till he can be sent to Gainesville for safe keeping. He says he did just what he intended to do and is not sorry fot it, for he had determined long ago to kill her if she would not marry him. Her principal reason for refusing was that she was related to him. He said his intention was to kill her in the road and take to the mountains and make his way to Virginia. He expressed his sorrow at shooting Leona, claiming that was accidental. At latest accounts she was still living but the doctor says there is no hope for her."

Arrest disease by the timely use of Tutt's Liver Pills, an old and favorite remedy of increasing popularity. Always cures

SICK HEADACHE,
sour stomach, malaria, indigestion, torpid liver, constipation and all bilious diseases.

TUTT'S Liver PILLS

The U. S. Gov't Reports show Royal Baking Powder superior to all others.

Nervous.
People should realize that the only true and permanent cure for their condition is to be found in having

Pure Blood
Because the health of every organ and tissue of the body depends upon the purity of the blood. The whole world knows the standard blood purifier is

Hood's Sarsaparilla
And therefore it is the only true and reliable medicine for nervous people. It makes the blood pure and healthy, and thus cures nervousness, makes the nerves firm and strong, gives sweet sleep, mental vigor, a good appetite, perfect digestion. It does all this, and cures Scrofula, Eczema, or Salt Rheum and all other blood diseases, because it

Makes Pure Blood
Results prove every word we have said. Thousands of voluntary testimonials fully establish the fact that

Hood's Sarsaparilla
Be Sure to Get Hood's **Cures**

"I have used Hood's Sarsaparilla for nervousness and I am in better health than for years." MRS. SARAH B. LYTLE, White Bluff, South Carolina.

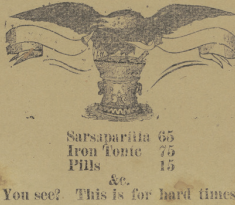

Hood's Pills cure all liver ills, constipation, biliousness, sick headache, indigestion. 25c.

The One Crop System
of farming gradually exhausts the land, unless a Fertilizer containing a high percentage of Potash is used. Better crops, a better soil, and a larger bank account can only then be expected.
Write for our "Farmers' Guide," a 142-page illustrated book. It is brim full of useful information for farmers. It will be sent free, and will make and save you money. Address,

Dahlonega Signal.

DAHLONEGA, JULY 5, 1895.

Send us all the important news for publication.

Mr. Fabe Sullins killed a large rattle snake the other day which had took up quarters in a mulberry tree.

The services at the camp ground last Sunday were not very largely attended on account of the inclement weather.

Rev. Loy Warwick, who is well known to our citizens, will be married to a Miss Stephens, of Young Harris, on the 10th inst.

Rev. S. M. Grizzle will preach at Hightower church on the third Saturday of the present month and also the Sunday following.

Our Lumpkin county friends in the West, who have been having a long drouth, write that they are now having abundance of rain.

Hereafter females entering the N. G. A. College will have to wear uniforms consisting of a navy blue serge Eton suit, with navy blue cap.

The examination by the faculty of the N. G. A. College and county school commissioner must be more rigid than heretofore, as parties who procured licenses heretofore made a failure at the recent examinations.

Tax receiver Grizzle was in town last Friday taking in tax returns for the last time for the present year. He commenced this week transfering and consolidating the returns and in a few weeks will complete his work for the year 1895.

Mr. John A. Wootten, who left this place some years ago for Alabama, and who was supposed to be dead some time since by his relatives and friends at Dahlonega, was heard from last week. He is residing one and a fourth miles from Florence, Ala., and enjoys good health.

Mr. M. C. Chester, of Randa, never fails to be on hand at any meeting where school teachers are required to attend. He is attending the institute this week and is just as punctual to be on hand when the bell rings as a Sunday School child is to be present at a Christmas tree when the curtain rises.

The examination of the large batch of tax fi. fas. last Friday in the ordinary's office which have accumulated there since 1877, has developed a good many things that were not known heretofore. As many as half a dozen fi. fas. were found against one certain person in this county who was never known to miss voting in an election since reaching the age of 21. The records also show that another man represented Lumpkin county in the legislature and at the same time a tax fi. fa. was lying in the ordinary's office, marked insolvent against him. More than this, this same man has since that time held another important office in another county in Georgia.

Bro. McNelley, of the Nugget, never looked any more pleasing since his good wife presented him with a beautiful little girl than he did last Friday. From a clean up at the Lockhart (of course you have all heard of the Lockhart) he got three pounds, quick and gold, which he tied up in a piece of buckskin, threw it across his his shoulder and came running into town shaking the bundle, hollowing gold! gold! at every man, woman and child he met. He did not stop at his office, but passed on with the swiftness of an arrow almost, until he made his way around the court house. He has since become quiet and you will likely see something in to day's Nugget about this rich clean up.

A WOMAN WHO WILL WORK

WANTED in every county to introduce the Celebrated "Hygeia" Waists for all ages. This waist supercedes the corset, and has received the unanimous approval of the leading physicians of America. $3.00 outfit free. An energetic woman can make from $15 to $50 weekly. Send for circulars and terms.

HYGEIA M'F'G Co., 378 Canal St., New York.

Highest of all in Leavening Power.—Latest U. S. Gov't Report

Royal Baking Powder

ABSOLUTELY PURE

A twelve pound babe put in its appearance at Mr. Joe Avery's the other day and the father is happy.

Abe Anderson killed a four foot rattle snake the other day, up the Cooper Gap road. Its tail was ornamented with seven rattles and a button.

The Davis, Watts and Rice mine on the Tan Yard branch, will cease operation this week, as the starting up of the Preacher mine cuts all the water off from it.

The machinery at the Preacher is about all ready for running and steam will be started up to-morrow and Monday things will be moving in good style if nothing breaks.

A commercial drummer remarked to us last Tuesday evening that "Dahlonega was the best all the year round towns he knew of." Meaning that the trade didn't change during the year.

Mr. J. F. Moore's two sisters, Mrs. Smith and Mrs. Ballenger, who were here on a visit, received a letter from home which called them away earlier than they expected, and they left for Floyd Springs last Tuesday.

Our Nimblewill correspondent writes: "The Sunday School at the Chapel is one of the largest and best managed schools in the county. Its flourishing condition is doubtless due to its able superintendent, Mr. Z. W. Miney, a young christian gentleman of this section."

Subscribers will please bear in mind that we like them all, but cannot afford to run a newspaper for love alone this year, and when your time is out we will discontinue sending the SIGNAL unless you renew your subscription. When this is done we will know that you want the paper, otherwise we cannot tell. In some instances we have continued subscribers papers after their times had expired until we could see them. Recently in a case of this kind we called for a little mite and the party told us that he had not subscribed but for one year, and therefore got fifteen months reading for $1.00, because we never take advantage of the law governing such matters and this is a clear loss. The date on the wrapper or a cross mark on the margin of your paper will show when a little more money is wanted.

At the first of the year the present council adopted a plan requiring all parties liable to street duty to either work themselves or pay the cash, in other words a man is not allowed to hire a hand to perform street duty in his place but must pay the cash to the marshal. If this plan is continued none but hands inside of the corporate limits should be employed. There are a number of able bodied, industrious hands in Dahlonega that can be hired, and when employment is given to them it will keep the people's money at home. Under the present plan it allows the marshal to send out into the country and secure the services of relatives and special friends, and at the same time good laborers right here out of employment. We know of a young man who went to Tennessee only a few days ago to get a job who was not permitted to work his brothers street tax out, but the money had to be paid, some body else employed, and he had to go off elsewhere in order to secure labor so to help support his widowed mother, who also has to pay several dollars property tax in our town. We ask, is this just?

ELECTRIC BITTERS.

Electric Bitters is a medicine suited for any season, but perhaps more generally needed in the Spring, when the languid exhausted feeling prevails, when the liver is torpid and sluggish and the need of a tonic and alterative is felt. A prompt use of this medicine has often averted long and perhaps fatal bilious fevers. No medicine will act more surely in counteraction and freeing the system from the malaria poison. Headache, Indigestion, constipation, dizziness yield to Electric Bitters. Only 50 cents per bottle at E. C. Cartledgee's drug store.

If something is not done to our rocky sidewalks visitors with corns on their feet will quit coming to Dahlonega.

We are informed that there is a probability of a new store being opened out in Dahlonega about the first of next month.

The damage to the college roof a few weeks ago, has been repaired and the building is once more in tip top shape.

Mr. Albert Whelchel, who has been confined to his room for several days with throat trouble, is improving since the Doctor lanced it.

We are glad to state that Mrs. Stephen Rice, who taken suddenly sick Thursday night of last week and not expected to live for awhile, is able to be up again.

Col. Price is making some repairs on his building opposite Dr. Howards. There are three applications for the building but it is not known who will get it.

Potato bugs made their appearance in Dahlonega last week in good health and with splendid appetites, and were not long in releaving many of our citizens potato patches of their robes of green. Their attact was prevented by some by sprinkling lime over the potato tops.

A few months ago when corn and meal were 40 cents per bushel the laborer received 80 cents per day. Now it is 70 and 75 cents per bushel the laborers wages are just the same old price—80 cents per day. The working man cannot raise his wages but must be content with whatever is given him—be it much or little—but it is most always little.

Capt. Hall, together with Profs. Waddell, Gaillard and Dunn were very busy all day last Friday getting two thousand college catalogues ready for the mails, directing, stamping, etc. The postage alone cost $40. In each catalogue was placed advertisements of the Steeples hack line, Hall and Hunt House, which will enable the boys desiring to attend our college, to know how to get here after leaving the railroad and where to find something to eat while on the way.

Mr. J. A. Butler, one of Jay's most enterprising citizens was in Dahlonega last Saturday. Mr. Butler has been successfully running a tannery at that place for many years. He has just finished up a contract of three thousand pounds of leather that cannot be excelled in neatness and durability in the United States, for Capt. Hall, of Dahlonega. This contract has been done by Mr. Butler alone within the last twelve months. Such men as this are beneficial to the country and we wish Lumpkin county had many more just such people as Mr. Butler, which would enable us to be much more prosperous than we are to-day.

Last Saturday Mr. James Phillips mended a pair of shoes for a colored boy of Dahlonega by the name of Albert Merriwether, for which he charged $1.25. When the boy called for the shoes the workman refused to let them go without the money. A meeting was coming off the next day which the darkey desired to attend but could not bear the thoughts of going barefooted. So Saturday night he broke into Phillip's shop and carried off the shoes. Monday morning the shoemaker swore out a warrant against the boy for burglarly, which was afterwards settled without a trial, thus saving the lad from going to the chain gang probably.

WHY NOT YOU?

When thousands of people are taking Hood's Sarsaparilla to overcome the weakness and languor which are so common at this season, why are you not doing the same? When you know that Hood's Sarsaparilla has power to cure rheumatism, dyspepsia and all diseases caused by impure blood, why do you continue to suffer? Hood's cures others, why not you?

Hood's Pills are prompt and efficient. 25c.

See advertisement of C. N. Fitts, nurseryman, elsewhere.

The first visitor at Porter Springs for this season, arrived last Monday.

The 4th was observed in Dahlonega by the explosion of two or more fire crackers.

The present council fixed the salary of the marshal for 1895 at $25, last Monday night, having neglected to pass upon it heretofore.

At the meeting to be held at Oak Grove on Friday before the 4th Sunday of the present month, the subject of foot washing will be discussed.

Prof. Dunn never tires working for the college or any thing in connection with it. He told us the other day than he intended soliciting subscribers to the paper edited by the students right away.

Many of Uncle Tom Stowers' friends gathered around him to hear him talk when he came up from Dawson county to Dahlonega last Monday. A more clevier man cannot be found and a better and more industrious farmer than Uncle Tom never lived.

We are requested to say that the members of Siloam church are notified to be present at a regular meeting to be held on Saturday before the third Sunday in the present month. A deacon is to be tried on the charge of intoxication, delegates elected to the Association, etc.

A Sabbath School was organized at Siloam church last Sunday with Miss Lula Higgins superintendent and C. R. Odum Secretary. The list of scholars was very large considering the inclement weather, and it is believed at an early day that at least fifty names will be enrolled.

Last Tuesday was sale day and property went very low on account of the scarcity of money. A small farm, consisting of 40 acres, below Auraria brought only $20. Before the election we were promised abundance of money provided there was a change in the administration. A change was made and such as this is the result.

It looks very much like the operators at the Lockhart intended having the bill down there resting on posts at an early day, as they have ordered 150 large posts—75 seven feet long and the others fourteen feet—for timbering purposes. This is one of the oldest mines in the county. It was operated before and during the war and many years since, and thousands of pennyweights of gold have been taken from its many valuable veins.

When you put an advertisement in the SIGNAL it is not like when patronizing some other papers—putting a candle under a half bushel—but it is always seen and read, thereby benefitting the patron and bringing forth much good. Only week before last Frank Meaders advertised the loss of a cape in these columns. Mr. Lewis Jones, residing twelve miles in the upper edge of the county, found it and sent it in the other day, stating that he read the notice in the SIGNAL.

The teachers Institute of Lumpkin county has been in session at this place ever since last Monday and will continue until about noon to-day. The attendance has been very good and all those in attendance express themselves as highly pleased with the instructions given them by Prof. Dunn, the newly elected expert. Prof. Dunn is a thorough educated gentleman and is fully competent to fill the position which he holds and will be of much benefit to the teachers of Lumpkin county during his term of office. A full and complete report of the proceedings will be given next week.

Geo. P. ESTES

Offers bargains this spring in Dry Goods that is without a parallel in Gainesville's history. Our immense stock and the unapproachable prices will open the eyes and delight the heart of the most economical purchaser. And the eyes of the competitors will likely stick out like pot legs. In fact competitors who are nervous or subject to heart trouble are advised not to read the prices quoted below without first having something to stimulate the circulation or quiet the nerves:

DRESS GOODS.

This department is so full of new and beautiful Spring Styles that no adequate idea can be formed without seeing them:
750 yds beautiful Dress Challies 3 ⅓c yd, worth 5c.
500 yds Figured Crepe Cloth 5c yd, worth 10c.
Full line Spring Colors in Cashmeres 8 ⅓c yd.
Full line Spring Colors in Crepe effect.
Woolen Dress Goods 12 ½c yd, worth 20c.
Full line Extra wide Cashmeres, Spring Shades, 17 and 19c yd, others ask 25 and 30c.
500 yards 45 inch Novelty Spring Suiting 27c yd. Atlanta's price about 40c.
Big stock very fine Foreign Cashmeres and Serges, in Black and Spring Shades, from 33 to 50 per cent lower in price.
Brilliant figured Mohairs in Black, away down in price.
500 yds Foreign Swivel Silk 39c yd, worth 50c.
Summer Silks from 30 to 75c yard, worth 50c and $1.

LAWN, ORGANDIES, DIMITIES, ETC.

500 yds White Lawn, 10c quality, for 5c yd.
350 yds White Lawn, 12 1-2c quality, for 7c yd.
275 yds White Lawns, 15c quality, for 10c yd.
And for 15, 20, 25, 30 and 35c we have some beauties.
40 inch Irish Lawn, figured, former price 12 ½c, now 7 ½c yd.
The prettiest stock Dimities and French Organdies from 10 to 20c yd in the city.

STAPLE DRY GOODS

Were never so low before.
3,000 yds. beautiful Ginghams, 5c. yd.; old price, 10c.
Big lot fine Frenchy looking Ginghams, 7 ½c.
Park Hills Toile du Nord Ginghams, 10c. worth 15c.
Scotch Zephys Ginghams, Atlanta's 25c. quality; our price, 16c. yd.
Large stock yd. wide Bleaching, long or short lengths, 5c. yd., worth much more.

Venetian Carpet, 17c. yd; worth 25c.
Ingrain " 23c. yd.; worth 37c.
All wool yd wide 2 ply Ingrain Carpet, 39c. yd.; worth 60c.
Some new and beautiful patterns in Carpets and Matting this spring.

It will pay you to see our stock before buying, as we have only mentioned a few of the many bargains in stock.

April 19, 94.

GEO. P. ESTES.

Rev. Mr. Boyd left for Hall county last Monday. He expects to attend the Mercer University next year.

A gentleman of Dahlonega, sent a friend of his in Augusta a couple dozen of nice frying chickens last week. Of course they were both Methodist preachers.

Our Two Run correspondent writes us that the funeral of Mrs. M. M. Roberts, preached by Rev. John W. Rider, of Dahlonega, at Pleasant Hill last Sunday, was largely attended.

J. F. Moore has just received $300 worth of valuable jewelry at his store. Also a fine $85 music box to be given away, an electro of which will be found elsewhere in this issue. Call on Mr. Moore for porticulars.

Rattle snake's pilots seem to be pretty plentiful at Mr. John Cains up in the mountains. This season he has killed nine—one in the house, another under it and the others close by. He says he is actually afraid to get out of bed during the night.

A little five-year-old girl of Geo. Adams, residing in Chestatee district, was bitten by a rattle snake's pilot last Monday and is in a very dangerous condition. She was running down a path when the snake struck at her, hanging its fangs in one of her legs and coiled around and bit it twice more. Medicine was sent for to town and the child is still alive but out of its senses, hollowing: Snakes! snakes! continually.

NOTHING STRANGE.

Intelligent people, who realize the important part the blood holds in keeping the body in a normal condition, find nothing strange in the number of diseases that Hood's Sarsaparilla is able to cure. So many troubles result from impure blood that the best way to treat them is through the blood, and it is far better to use only harmless vegetable compounds than to dose to excess with quinine, calomel and other drugs. By treating the blood with Hood's Sarsaparilla, scrofula, salt rheum and what are commonly called "humors," dyspepsia, catarrh, rheumatism, neuralgia, consumption and other troubles that originate in impurities of the blood or impaired circulation, can all be cured. July 5 1m.

Since the examination of school teachers a few days ago, it has been discovered that the questions prepared by the state school commissioner were stolen in some manner by parties in a portion of the lower counties and sold to applicants at $1 and $2 each before examination day. The commissioner will order another examination in these counties if not throughout the state at an early day. So our Lumpkin county teachers need not be surprised should they be called on to stand another examination if one is ordered throughout the state.

Under a recent act of the legislature the ordinary, clerk and tax collector are required to meet on or before the first day of July and make out a complete list of disqualified voters residing in the county on the first day of January, 1895, by reason of non payment of taxes or having been convicted of certain crimes. This work was commenced here last Friday and was completed Tuesday. The books show a reckord of 262 fi. fas. against parties in Lumpkin county. Some having as many as six fi. fas. against them. A calculation shows that there are 225 disqualified voters residing in the county—220 for non payment of taxes and 5 for having been convicted of certain crimes disqualifying them from voting.

We notice that a fellow, who desires a change in the schedule of the Dahlonega and Gainesville mail line, wrote a letter last week endeavoring to show the advantages, and signed it "Business Man." But little business is transacted by this fellow else he would not be ashamed to sign his real name to his communication. Mr. "Business Man" desires the mail to leave here before he gets up—six o'clock. If this fellow had any business with the post master general, would he sign his letter "Business Man?" If he was what attention would be given it? Suppose when he wanted a pound of quick he would write an order to the Hall Commisary and sign it "Business Man," would he get it? No. Business men don't do business this way. The business men don't want any change in the arrival and departure of the mails, except to come in and go out on schedule time.

Mrs. Charity Hall, wife of Rev. Greenberry Hall, died at her residence in the edge of Dawson county last Saturday, after an affliction of thirteen years with fits. She was about 86 years of age and had been a strict member of the Baptist church for the last half a century. Her remains were interred at New Bethel church the day following in the presence of a large concourse of people. The aged husband has our sympathy in the loss of his companion.

The sheriff informs us that he is unable to keep the jail in as clean a condition as he would like without a different way to supply the building with water than he now has, and has so informed Judge Kimsey of the fact. The Judge told him to go ahead and have it supplied in the right manner and he would give an order on the county treasurer for a reasonable amount. The sheriff speaks of having a tank put up at the proper place and it supplied with water by a pump at the well.

Mr. James Brown, living two miles from Dahlonega, came near happening to an accident while out fishing the other night that might resulted in his death had he been a little slower. He was over on the Chestatee river in company with Mr. John McGee's sons, among the laurels and rock cliffs traveling a dim path near the river when the light went out. The moon had long before set behind the western hills and the night was very dark and none of the party had any matches. They were well acquainted with the path but it was too dark to travel and they feared falling off of a high cliff of rocks that was close by. Mr. Brown was in front and got down on his hands and knees and commenced groping his way in the dark, placing out first one hand and then the other so as to enable him to discover the precipice should he lose his way. While feeling his way in this manner his hand struck a live object. He jumped back as quick as possible and in less than a minute a rattle snake was heard singing down the cliff a few feet below. Doubtless Mr. Brown placed his hands on the snake and it fell down a portion of the cliff while coiling. It is useless to say that Mr. Brown and his companions were not long reaching their homes.

QUERRIES ANSWERED.

What Georgia Farmers Wanted Information About.

THE COMMISSIONER'S REPLIES.

Spraying Is Proven to Be a Necessity. Some of the Best Solutions—Peanuts as a Plant Food—Burning Off Lands Is a Bad Practice—Points About Fertilizers and Other Matters.

LOSS OF NITROGEN WHEN PEAVINES ARE TURNED UNDER.

QUESTION 1.—Suppose I wish to turn peavines under for fertilizing, how shall I prevent the loss of the nitrogen, which the peas have furnished? If left during the winter we know that this must inevitably happen.

ANSWER 1.—As you will notice from the commissioner's letter for this month, to turn an entire pea crop under is not the most remunerative plan of utilizing its benefits. A far better paying method is to cut the vines for hay and sow either rye or Crimson clover on the stubble. Or you might sow wheat or winter oats, and by using some form of potash, 200 pounds per acre of kainit is good, you could expect, with ordinary seasons, a paying yield. For these crops the land should be thoroughly plowed and harrowed.

SPRAYING APPARATUS.

QUESTION 2.—The development of fungous diseases and the increase of insect pests are becoming such sources of worry and loss to the vegetable and fruit grower that I can but agree with your views on the subject of preventives, spraying, etc. With this end in view I would like to know something of the proper apparatus to be used and the probable cost.

ANSWER 2.—We have recently seen in operation a small sprayer, which can be attached to the side of any vessel, barrel, tub or bucket, and for a small garden or orchard will answer every purpose. It can be easily handled, throws the spray with sufficient force and cost $5.00.

For larger orchards or market gardens the following from Secretary Morton, United States commissioner of agriculture, covers the ground:

"Spraying to control various insect pests, particularly those of the orchard and garden, has reached so satisfactory and inexpensive a basis that it is recognized by every progressive farmer as a necessary feature of his year's operations, and in the case of an apple, pear and plum crops the omission of such treatment means loss. The consequent demand for spraying apparatus has been met by all the leading pump manufacturers of this country, and ready-fitted apparatus, consisting of pump, spray tank or barrel, and nozzle with hose, are on the market in numerous sizes at prices ranging from $30 upward. The cost of a spraying outfit for orchard work may, however, be considerably reduced by purchasing merely the pump and fixtures and mounting them at home on a strong barrel. An apparatus of this sort, representing a style that has proven very satisfactory in practical experience, is illustrated in the accompanying figure. It is merely a strong pump with an air-chamber to give a steady stream provided with two discharge hose pipes. One of these enters the barrel and keeps the water agitated and the poison thoroughly intermixed, and the other and longer one is the spraying hose and terminates in the nozzle.

"The spraying hose should be about 20 feet long and may be fastened to a light pole, preferably of bamboo, to assist in directing the spray. The nozzle should be capable of breaking the water up into a fine mist spray, so as to wet the plant completely with the least possible expenditure of liquid. The two more satisfactory nozzles are those of the Nixon and the Vermorel type. A suitable pump with nozzle and hose may be obtained of any pump manufacturer or hardware dealer at a cost of from $10 to $15. If one with brass fittings be secured it will serve for the application of fungicides. The outfit outlined above may be mounted on a cart or wagon, the additional expense secured in this way facilitating the spraying of trees, or for more extended operations, the pump may be mounted on a large water tank."

SPRAYING.

QUESTION 3.—I notice remedies for spraying in your last report. Is it necessary to spray? Cannot a good crop of fruit be raised without this trouble and expense? If not, give some specific directions.

ANSWER 3.—This question of spraying is no longer a matter of choice, but of necessity. The presence of fungus diseases and insect pests is the main cause of disappointment in our fruit crops, and also of the early decay of orchards, which should continue in bearing for an indefinite period. The value of these spraying remedies has been so clearly demonstrated by the experiment stations and by individual tests of large fruit growers that we can no longer doubt their expediency or economy. In fighting these pests the warfare must be aggressive as well as defensive, and should have been inaugurated earlier in the season; but it is not yet too late to use some of the remedies which I give below.

Apple.—Scab, codlin moth, and bud moth.)—When blossoms have fallen, bordeaux and arsenites—the same, 8 to 12 days later; 10 to 14 days later, bordeaux again, 10 to 14 days later, bordeaux again.

Cherry.—(Rot, aphis, slug.)—When fruit has set, bordeaux. If slugs appear, dust leaves with air slaked lime. Hills bore.

Grape.—(Fungus diseases, flea beetle.)—When leaves are 1 1-12 inches in diameter, bordeaux. Paris green for larvæ of flea beetle. When flowers have fallen, bordeaux and paris green as before; 10 to 14 days later, bordeaux; 10 to 14 days later, if any disease appears, bordeaux; 10 to 14 days later, ammoniacal copper carbonate. Apply again later, if necessary.

Peach.—(Rot, mildew).—When fruit has set, bordeaux; when fruit is nearly grown, ammoniacal copper carbonate; 5 to 10 days later, the same; and 5 to 10 days later repeat, if necessary.

Pear.—(Leaf blight, scab psylla, codlin moth).—After blossoms have fallen, bordeaux and arsenites; kerosene emulsion if necessary 8 to 12 days later; repeat these; 10 to 14 days later bordeaux, kerosene emulsion forcibly for psylla; 10 to 14 days later repeat, if necessary.

Raspberry, blackberry, dewberry.—(Anthracnose, rust.)—During summer, if rust appears on leaves, bordeaux. If orange or red rust appears it is best to destroy the plants.

Strawberry.—(Rust.)—As first fruits are setting, bordeaux; as first fruits are ripening, ammoniacal copper carbonate. When last fruit is gathered, bordeaux; to be repeated if rust appears. Young plants not in bearing may be treated throughout the fruiting season.

Tomato.—(Rot blight.)—At first appearance of blight, or rot, bordeaux, to be repeated as necessary during the season.

The above extracts, with the following formulas, are from careful tests at Cornell Experiment station. As to the manner of application and other details, we have not space to particularize. A sprayer, of course, is necessary, and you might write to Cornell for explicit directions.

BORDEAUX MIXTURE.

Copper sulphate, 6 pounds.
Quick lime, 4 pounds.
Water, 40 to 60 gallons.

Dissolve the copper sulphate by putting it in a bag of coarse cloth and hanging this in a vessel holding at least 4 gallons, so that it is just covered by the water. Use an earthen or wooden vessel. Shake the lime in an equal amount of water. Then mix the two and add enough water to make 40 gallons. It is then ready for immediate use but will keep indefinitely. If the mixture is to be used on peach foliage it is advisable to add an extra pound of lime to the above formula. When applied to such plants as carnations or cabbages it will adhere better if about a pound of hard soap be dissolved in hot water and added to the mixture. For rots, moulds, mildews and all fungous diseases.

AMMONIACAL COPPER CARBONATE.

Copper carbonate, 1 ounce; Ammonia, enough to dissolve the copper; water, 4 gallons.

The copper carbonate is best dissolved in large bottles, where it will keep indefinitely, and it should be diluted with water as required. For the same purposes as bordeaux mixture.

FORMULAS—COPPER SULPHATE SOLUTION.

Copper sulphate, 1 pound.
Water, 15 gallons.

Dissolve the copper sulphate in the water when it is ready for use. This should never be applied to foliage, for it must be used before the buds break. For peaches and nectarines use 25 gallons of water. For fungous diseases.

PARIS GREEN.

Paris green, 1 pound.
Water, 200 200 gallons.

If this mixture is to be used on peach trees, 1 pound of quick lime should be added. Repeated applications will injure most foliage unless lime is added. Paris green and Bordeaux mixture can be applied together with perfect safety. Use at the rate of 4 ounces of the arsenites to 50 gallons of the mixture. The action of neither is weakened, and the Paris green loses all caustic properties. For insects which chew.

LONDON PURPLE

This is used in the same proportion as Paris green, but as it is more caustic it should be applied with two or three times its weight of lime, or with the Bordeaux mixture. The composition of London purple is exceedingly variable, and unless good reasons exist for supposing that it contains an much arsenic as Paris green, use the latter poison. Do not use London purple on peach or plum trees unless considerable lime is added. For insects which chew.

HELLEBORE.

Fresh white hellebore, 1 ounce.
Water, 3 gallons.

Apply when thoroughly mixed. This poison is not so energetic as the arsenites and may be used a short time before the sprayed portions mature. For insects which chew.

KEROSENE EMULSION.

Hard soap, 1-2 pound.
Boiling water, 1 gallon.
Kerosene, 2 gallons.

Dissolve the soap in the water, add the kerosene and churn with a pump for 5-10 minutes. Dilute 10 to 25 times before applying. Use strong emulsion for all scale insects. For insects which suck, as plant lice, mealy bugs, red spider, thrips, bark lice or scale. Cabbage worms, currant worms and all insects which have soft bodies can also be successfully treated.

Every Honorable Veteran

DESERVES HIS PENSION,

And the Torn Limb Is Not the Only Reason for a Government Reward, Either.

From the Louisiana, Mo., Journal.

Samuel R. Jordan has always lived here in New Portland. He is an honorable citizen, and as a veteran deserves the best care his Government can give. It is true he was not wounded in the war, it is also true he there contracted the seeds of a disease, compared to which a mortal wound would have been a kindness. We all know him, and when he was stricken with paralysis, or locomotor ataxia as the physicians said, we saw him deprived of the use of his legs, a helpless, hopeless burden, a source to his friends and despairing of life. He has done everything he could do to effect relief, has had the best medical skill available, and yet his lower limbs were as dead as a dead limb, and a pin or knife stuck into them was not felt. The nerves were dead. But all this is now changed, and it all came about through the recommendation of Al. Parlin, of Madison, Mo., a brother veteran. It seems Parlin had been cured of spinal disease and malaria (and, by the way, paralysis is produced by some spinal affection) by a new food called Dr. Williams' Pink Pills, and he urged our friend Jordan to try them. Jordan did so, and all his old friends were wild with joy at the result. The pills seem to have put new life into him and to have built up the dead nerves as a starving man is built up by good meat. Jordan is now so well, he walks all over and without crutches or cane and is the happiest man alive. All his old comrades of Company A, Twenty-eighth Missouri Volunteers, will rejoice with him.

An inquiry by the reporter disclosed the fact that the pills above referred to are in fact a great remedy and seem to have a sale nearly all over the world. The druggists all about here have them for sale at 50 cents per box or six boxes for $2.50 (never by the dozen or 100). They are made by the Dr. Williams' Medicine Company, Schenectady, N. Y.

THE STANDARD.

DURANG'S RHEUMATIC REMEDY

Has sustained its reputation for 18 years as the standard remedy for Rheumatism. Its quick and permanent cure of Rheumatism in all its forms, in all its forms of Rheumatism, is endorsed by thousands of Physicians, Publishers and Druggists. In Poor Health

means so much more than you imagine—serious and fatal diseases result from trifling ailments neglected.

Don't play with Nature's greatest gift—health.

Brown's Iron Bitters

It Cures

Dyspepsia, Kidney and Liver Troubles, Constipation, Bad Blood Malaria, Nervous ailments. Women's complaints.

It does not injure the teeth, cause headache or produce constipation—other iron medicines do. Brown's Iron Bitters is the only iron preparation that will not blacken the teeth. It does not cure—benefit only—if you have consumption, but will cure dyspepsia, indigestion, biliousness, and all diseases requiring a tonic. It is pleasant to take.

FOR SALE BY E. C. CARTLEDGE

$500,000,000

Represents the net shrinkage in property value in the South and West, according to the tax returns officially recorded, for 1894, as compared with 1893.

A decisive contest is to be fought between now and the next Presidential election for

FREE COINAGE

THE PEOPLE'S MONEY—the coinage of both gold and silver, without discrimination, which means the free coinage of both as opposed to the policy of contraction, which has been dictated by England and adopted in Washington, and which levies tribute on every product of the farm, on valuations of all kinds and on all compensations for labor.

THE GREAT ISSUE NOW is the double standard against the single standard—the use of both gold and silver as standard money metals against keeping the currency of the country on the gold basis.

The ATLANTA WEEKLY CONSTITUTION

published at ATLANTA, GA., and having
A CIRCULATION OF MORE THAN 155,000, chiefly among the farmers of the country, and going to more homes than any weekly newspaper published on the face of the earth, is
The Leading Champion of the People in all the great contests in which they are engaged against the exactions of monopoly.
THE CONSTITUTION IS THE BIGGEST AND BEST WEEKLY NEWSPAPER published in America, covering the news of the world, having correspondents in every city in America, and in the capitals of Europe, and reporting in full the details of debates in Congress on all questions of public interest. It is
THE GREAT SOUTHERN WEEKLY NEWSPAPER, and as the exponent of Southern opinion and the purveyor of Southern news it has no equal on the continent.

An enlargement of 12 columns. To meet the demands upon its space for news, The Constitution will increase its size during the summer to 12 pages, 7 columns, making 84 columns each week.

THE CONSTITUTION'S SPECIAL FEATURES are such as are not to be found in any other paper in America. . . . . .

The Farm and Farmers' Department, The Women's Department, The Children's Department, are all under able direction and are specially attractive to those to whom these departments are addressed.

Under the editorial management of CLARK HOWELL, its special contributors are writers of such world-wide reputation as Mark Twain, Bret Harte, Frank R. Stockton, Joel Chandler Harris, Dr. Felix L. Oswald, and hundreds of others, while it offers weekly service from such writers as Bill Arp, Sarah Barnwell Elliott, Wallace P. Reed, Frank L. Stanton, and others, who give its literary features a peculiar Southern flavor that commends them every fireside from Virginia to Texas, from Missouri to California.

During the whole delay and failure to bring the promised relief in financial matters The Constitution has heralded, in season and out, the full news. It has given plain editorial utterances upon the effect of the trimming and misguided policy of wreckage and more bonds, which are have shown to be prophetic in their unerring directness.

STRAIGHT, CLEAN, UNTRAMMELLED,

THE CONSTITUTION Salutes the free people who insist that the servants of the people shall not become their masters.

By special arrangement the paper publishing this announcement will be clubbed with THE CONSTITUTION at the remarkably low rate announced elsewhere in this issue.

THE GREAT SOUTH AMERICAN NERVINE TONIC AND Stomach and Liver Cure

The Most Astonishing Medical Discovery of the Last One Hundred Years.

It Is Pleasant to the Taste as the Sweetest Nectar.
It Is Safe and Harmless as the Purest Pills.

This wonderful Nerve Tonic has only recently been introduced into this country by the Great South American Medicine Company, and yet has great value as a curative agent has long been known by the native inhabitants of South America, who rely almost wholly upon its medicinal powers to cure every [illegible] by which they are [illegible]

This new and valuable South American [illegible] and qualities hitherto unknown to the medical profession, [illegible] has completely solved the problem in the cure of Dyspepsia, Indigestion, Biliousness, Liver Complaints, and all of the general Nervous System. It also cures all forms of failing health from whatever cause. It performs this by the Great Nervine Tonic qualities which it possesses and by its great curative powers upon the digestive organs, the stomach, the liver and the bowels. No remedy compares with this wonderfully valuable [illegible] builder and strengthener of the life forces of the human body and as a permanent cure of a broken down constitution. It is also of more real permanent value in the treatment and cure of diseases of the lungs than any ten consumption remedies ever used on this continent. It is a marvelous cure for nervousness of females of all ages. Ladies who are approaching the critical period known as change in life, should not fail to use this great Nervine Tonic almost constantly for the space of two or three years. It will carry them safely over the danger. This great strengthener and curative is of inestimable value to the aged and infirm, because its great energizing properties will give them a new hold on life. It will add ten or fifteen years to the lives of many of those who will use a half dozen bottles of the remedy each year.

A SWORN CURE FOR ST. VITUS'S DANCE OR CHOREA.

CRAWFORDSVILLE, IND., March, 1893.

My daughter, twelve years old, was afflicted for several months with Chorea or St. Vitus's Dance. She was reduced to a mere wreck, could not walk, could not talk, could not swallow anything but liquids, and could not be like an infant. Doctor and neighbors gave her up. I commenced giving her the South American Nervine Tonic; the effects were very surprising. In a few days she could sit up, and in three weeks, and rapidly improved. Four bottles cured her entirely. She is now [illegible] and [illegible] this South American Nervine Tonic. Health from whatever cause.

JOHN T. MIER.

State of Indiana,
Montgomery County, } ss:

Subscribed and sworn to before me this May 15, 1893. CHAS. M. DAVIS, Notary Public.

CRAWFORDSVILLE, IND., June 21, 1893.

My daughter was very severely afflicted with St. Vitus's Dance or Chorea. We gave her three and one-half bottles of South American Nervine and she is entirely cured. I believe it will cure every case of St. Vitus's Dance. I have kept it in my family for years and consider it the best remedy in society in the world for indigestion and dyspepsia. It is the best Nervine and Building Health from whatever cause.

JOHN T. MIER.

INDIGESTION AND DYSPEPSIA.

The Great South American Nervine Tonic

Which we now offer you, is the only absolutely unfailing remedy ever discovered for the cure of Indigestion, Dyspepsia, and the vast train of symptoms and horrors which are the result of disease and debility of the human stomach. No person can afford to pass by this jewel of incalculable value who is affected by disease of the Stomach, because the experience and testimony of thousands go to prove that this is the second and every one great cure in the world for this universal destroyer. There is no cure for all malignant disease of the stomach which can resist the wonderful curative powers of the South American Nervine Tonic.

Harriet E. Hall, of Waynetown, Ind., says: "I owe my life to The Great South American Nervine. I had been in bed for three months from the effects of an exhausted Stomach, indigestion, Nervous Prostration and a general shattered condition of my whole system. Had given up all hopes of recovery, when I took three doctors with no relief. The first bottle of the Nervine Tonic helped me, and in a week I was able to walk about, and a few bottles cured me entirely. I believe it the best medicine in the world." I can not recommend it too highly."

Mrs. M. Russell, Sugar Creek Valley, Ind., writes: "I have been a great sufferer from Stomach Nervine Tonic, and will say I consider it the best medicine in the world. I believe it saved the lives of two of my children. They were down and nothing seemed to help them any good until I procured this remedy. It was very surprising how quickly they improved on its use. I recommend the medicine to all my neighbors.

Mrs. Ella A. Fratten, of New Ross, Indiana, writes: "I have been a great sufferer from Nervous Prostration. My system was completely exhausted, appetite gone, was completely run down, suffering up blood's sake sure. I was in the first stages of consumption, as pronounced by physicians of several prominent. I began taking the Great South American Nervine Tonic, and in about six months, and am entirely well. It is the best medicine for nervous prostration I have ever seen.

M. J. Brown, Prospect, of Elida, Mo., writes: "My health had been very poor for a long time. I was troubled with indigestion, and had lost 16 pounds when I commenced using South American Nervine Tonic, and in two weeks had gained 20 pounds, and am much stronger and better than I have been for years. I am sure it would not have lived through the Winter had it not been for this remedy. I feel it is done for me, and buy it eagerly as I can not be without it.

LHE HAD WED ANOTHER.

Dr. Brown After an Absence of 25 Years Returns and Finds His Wife Married.

Waycross, Ga., July 4.—A most interesting case of the Enoch Arden kind has just come to light here. The parties most concerned are Dr. Brown, who returned a day or two ago, after an absence of 25 years, and his wife, who is now the happy spouse of a well-to-do citizen of this place.

Brown is a Frenchman, with an interesting history. When he left this country he went to France to look after a legacy. A quarrel with his lawyer resulted in the murder of the latter, and Brown was sent to prison for 25 years.

The legacy was consumed in the endeavor to acquit him, and when he was freed, he was penniless. His first act on being released was to come to Georgia to see his wife, whom he had loved all during the years of separation. She had long since given him up as dead and had been married twice. Her present husband is a Mr. Thomas, who lives near Sheriff Miller in this county.

Brown's grief on finding her wedded to another man was intense, and has affected him exceedingly.

He asked her and her husband to visit him, but she refused to grant the request. Mr. Thomas accepted the invitation.

Brown has gone away again, discouraged and heart-broken on his unkindley fate.

Our Share of Happiness.

Each human being from the moment consciousness awakens until the day of his death feels instinctively that he has a right to happiness. When he is young he confidently expects to get it. Further along in life he begins to have a baffled feeling that he has somehow missed it. Later this feeling sinks into a settled dispair of ever getting it, or else into a furious protest against fate, that he of all human beings was appointed to lose his inheritance. But when we are ignorant of the fact, and when we get older we perhaps forget it, that happiness is a spiritual quality and to be obtained only according to spiritual laws. We cannot purchase happiness with money, as we may buy a yard of cloth or an estate. We cannot take it by force from another, as we may steal his coat. Nor can we gain it by wheedling or cheating another man out of his rightful share, expecting to make it our own; for happiness is but the delicate perfume arising from the sum total of all human delights. Each man's share of it is the same, and can never be greater than any other man's share. As it cannot be bought, so it cannot be paid for. But those who refuse to add to the general stock of happiness, while expecting still to claim their share, will find themselves outwitted by nature. Their inner senses become dull, and then closed entirely. They become incapable of perceiving happiness. They never obtain it, not because it is not there, but because they no longer see that it is there!

The most awful thought that comes to a man sometimes, is the thought of a soul that he injured years and years ago, and that he cannot touch and cannot help. His own life is under better influences, his own life is uplifted; but where is the man, where is the woman, to whom he did the harm years ago? God save us from that! It would be hopeless if it had not the infinite hope in the endless love of God to fall back upon.—Phillips Brooks.

Just What Love Is, and What a Lover Should Be.

You wonder how you will know when love comes, and you seek for a definition of it in poetry and romance. That wild feeling which sometimes possesses an untrained girl and results in her eloping with a young man, who does not know the meaning of love in its best sense—is that this great emotion? No, a thousand times no. Is that exaggerated passion described in novels, and which seems to you to entirely ignore the sensible side of life, and to express in extravagant words and more extravagant deeds—is that love? No, a million times no. Love is, first of all, unselfish. Then it is sympathetic. Then it is reverential. No man ever loved a woman who urged her to disobey her parents. No matter what he may have said, the love that suggested this was a poor love—a base imitation of the real metal. It is not love which wishes you to think only of it and to drive away from you every other good feeling.

Why, my dear girls, when love comes to you it will make you eager to be more thoughtful of every one of those who care for you. It will make you pitiful and anxious to help those who have not had this great blessing, and it will make you long to be close to God himself, for this feeling surely comes from Him and is of Him. Your lover is a poor one if he is not your friend, and yet you may have a friend who is not a lover. Your lover becomes a part of your life. What you do interests him, what you think about is a pleasure to him, and when you are with him each of you unconsciously lays bare the life that has been spent apart, and each gives a sympathy as to all that has been done. True love is forgiven. The man who loves you will be merciful to your faults, but he will also help you and stand well by you, so that trusting on him you do not commit this same error again. And your Weil, when without a word from him, you know there is trouble and worriment, you will prove yourself, if you love him, his angel of consolation. Asking no questions, you will be told all, and the instinct of love will guide you to the right and you can offer, not only sympathy, but wise speech. This is only possible between people who love strongly; between friends there may be confidence, but there is nothing absolutely like this. To a friend one cannot lay bare one's heart desire or heart's ache, but to that one being who has the best of you there is nothing too sacred to tell and nothing too secret to whisper.—Ruth Ashmore in the Ladies' Home Journal.

All along the California coast great beds of a remarkable seaweed exist. This weed is commonly known as the giant kelp. It has an uncommon economic value. Its growth is peculiar. A full grown specimen has a stem measuring 300 to 400 feet in length, clutching the bottom of the ocean, while it bears at its summit on the surface of the water an air bulb, from which a turf upward of fifty feet long of streamer like leaves extend, each leaf being thirty or forty feet long. The stem which anchors this floating mass, though no thicker than a common window cord, is of great strength and flexibility and has for ages been used by the Indians for fishing lines which is where the stem begins to expand into the hollow tube and varies from ten to fifteen fathoms.

STRENGTH FOR TO-DAY.

Strength for to-day is all that we need,
As there never will be a to morrow:
For to-morrow will prove but another to day,
With its measure of joy and sorrow.

Then why forecast the trials of life
With such sad and grave persistence,
And watch and wait for a crowd of ills
And as yet have no existence?

Strength to-day—in house and home,
So practice forbearance sweetly—
To scatter kind words and loving deeds,
Still trusting in God completely.

Strength for to-day—what a precious boon
For the earnest souls who labor,
For the willing hands that minister
To the needy friend or neighbor!

Words of Wisdom.

Success is the advertisement of industry.

Amusements we have outgrown are called follies.

The hand grow heavy when the heart is weak.

Mammon's conscience does not worry him greatly.

Learn from the enemy, take hold and keep hold.

History doesn't repeat itself as often as gossip does.

The brave do not ask mercy, but they do demand justice.

The worst kind of a trouble is the kind you can't tell about.

Distance seldom leads enchantment to a job of work that is coming.

No man likes to hear his wife talk of what she will do after he is dead.

If a wolf goes no farther than your door, he will finally starve to death.

It is very hard to admit that a man younger than yourself has more sense.

Most men avail themselves of their opportunities to make asses of themselves.

Corruption always leaks out somewhere. With a corrupt heart it is at the mouth.

Don't you know that Hood's Sarsaparilla will overcome that tired feeling and give you renewed vigor and vitality!

Dahlonega Signal.

DAHLONEGA, JULY 12, 1895.

Entered at the Dahlonega, Ga. P. O., as second class matter.

The Jailor who executed Gittean for the murder of Garfield died last week.

Fifty houses were burned in Cornwall, O., last Sunday and 800 people are now homeless.

It turns out that a negro in Atlanta by the name of Boatner stole the teachers questions and sold them.

Spence Mitchell, col., while intoxicated, was shot by a railroad man in Gainesville last week. He will recover.

A man in Philadelphia who was bitten by a mad dog eighteen years ago is said to have had hydrophobia every year since.

Two men were electrocuted in Augusta last Saturday by coming in contact with a live wire while repairing an electric light.

Fredrick Hellman killed his wife and four children last week by gas. He closed the doors, turned on the gas and laid down and died with them.

There are another new baby at President Cleveland's house, and if all the articles that are written about it were laid down in a row it would reach for many miles.

A woman weighing 675 pounds died at Millersburg, O., last week. Her coffin was four feet seven inches wide and of the same height. Twelve men acted as pall bearers.

A destructive cyclone passed over Morgan and Putnam counties last Sunday, doing much damage to crops, building, etc., and killing two persons and injuring many others. It was 150 yards wide.

The silver convention at Griffin on the 18th will be largely attended. The democrats are electing delegates in nearly every county in the State. The Atlanta Journal calls them populists. If this be true this party will be sure to carry the next election.

The entire eastern watershed of the Rocky Mountains from the Nebraska and Iowa lines to Texas were swept by a terrific storm last Sunday, covering an area for 200 miles. The crops of hundreds of famers are ruined and many lives are lost.

It seems that some of the Philadelphians are opposed to the Liberty Bell being brought to the Atlanta Exposition. They called on the mayor of that city last week and entered a protest and will likely institute legal proceedings to prevent its coming.

A letter received at the headquarters of the Cotton States and International Exposition, from Governor Werts, of New Jersey, evinces decided interest in the Exposition. He has under consideration the matter of appointing a commission to represent New Jersey at the Exposition.

A Baptist minister of Athens met a man who owed him an account. The man told the preacher to call around Friday and he would pay him. The preacher agreed to do so, but told the man that if he did not have the money Friday he would have to choose the way in which he wished to die. This pleased the fellow, who said if he could be put out of the misery of owing people he would be willing to be killed. He then told the preacher to call around Friday and kill him as he would not have the money.

The new portable Maxim gun fires 600 bullets a minute, and, can send them through 40 inches of oak. Its muzzle can be moved about like the nozzle of a garden hose, sending a deadly stream of lead in every direction. An army of 10,000 men armed with this weapon would be equal, it is estimated, to one of 1,000,000 men operating with the arms now in general use. The gun is a simple looking affair a sole-leather case, and when folded up and slung over a soldier's back, weighs only 45 pounds.

Funny and odd things sometimes happen at fires. In New York the other day half a dozen firemen emerged from a building, in which they had been fighting fire, with pink, green and cardinal whiskers, and their faces and necks presented a study in artistic blending of color. They had been in an ink supply house, and a number of the colored ink casks and kegs had burst and given them a bath. In San Francisco during the big fire of last week, the water supply at a great wine warehouse gave out, and a hose was coupled to an 18,000-gallon wine tank, and claret was played on the flames.

Down on Congressman Tate.

It is right amusing to see how some of the democratic editors of the small fry variety, in the 9th district are jumping on Mr. Tate and calling him a populist because he is for free silver.

Why don't they pinch their chief—Steve Clay—on the toes. He's for free silver. We will tell you the whole trouble. During the campaign when the democratic editors of the 9th presented the contribution basket to Mr. Tate he only gave money to those who in his opinion, were able to help blaze his way out to congress, and to those who he thought would be of more damage to him than profit were they to endeavor to work for him were turned away sadly disappointed with bowed heads and grief stricken hearts. This is why some of these little fellows would like to use the young congressman as a foot ball now.

Death of H. S Awtry.

The many friends of Mr. H. S. Awtry in Lumpkin county will regret to learn of his death which occured at Powder Springs, Ga., on the night of the 27th ult., of hydrophobia, after three days of intense suffering.

He was bitten by a mad dog while returning from his store at night on the 11th day of May and taken sick on the 24th of June. He told his relatives the day before he died that "you will attend my funeral to-morrow," and sure enough he passed away that night and was buried in the cemetery of the church which he joined on the 15th of September, 1867, the following day in the presence of his relatives and a large concourse of friends. Mr. Awtry was born and raised in Lumpkin county and left Dahlonega more than thirty years ago and went to Powder Springs where he married a Miss Kiser and resided there up to his death.

The mother of the deceased Mrs. Howell, still resides in this county near Dahlonega. Mrs. Stephen Rice, Mrs. Van Crow, Miss Sallie Rice, Mr. Robt. Howell and Mr. J. E. Howell, half brothers and sisters of Mr. Awtry, also live in the county. The deceased also leaves a wife and four children to mourn his sad demise. We extend to each and every one of them our heart felt sympathy in the loss of their relative.

On a Missionary Raid to Dahlonega.

One day this week we saw come into town a jet black darkey sitting reared back in a road cart, driving a horse which was so poor and weak that it could scarcely move one foot before the other, while the driver's wrists were ornamented with beautiful white cuffs and his neck was encased in a broad collar which almost hid it from view. We enquired who it was and what it meant. We were told that he was a missionary preacher who was traveling in the interest of the heathens—asking the poor negroes of Dahlonega, who have to live from hand to mouth—for money to be sent off to foreign countries.

We are told that this fellow drove on to a colored sisters house and stopped and requested her to cut down her roasting ear patch and feed the animal, but she refused and we reckon the old horse went without any supper that night.

We have wondered if it is the intention of the Bible for an able bodied man like this to punish an old horse by driving it about all over the country with scarcely any thing to eat—the driver being chuck full of yellow-legged chicken—in search of money to be sent off to a class of people, some of whom would care no more for killing you than they would a grasshopper.

It does look like that if the great Ruler who made every thing and pronounced it good, had intended these people to be better than heathen he would have attended to it at the start without having a darkey driving an old half starved horse soliciting money for the benefit of their enlightenment, at a time when there is so much needed work on the farms. The heathens are not needing as much attention just now as some of our home folks.

A colony from the north of many hundred people will settle in lower Georgia first of September.

Three hundred and thirty houses were burned at St. Petersburg this week and 2,000 people are homeless.

Lumpkin County Teacher's Institute.

The Institute convened at the College in Prof. Dunn's room. Prof. J. E. Dunn the Expert had the Institute opened with religious service by Rev. W. A. Parks, and was opened with singing and prayer each morning. Prof. Dunn throughout the entire exercises of five days showed that he is fully up on the modern improvements in teaching. His lectures and demonstrations on the black-board were quite interesting and instructive. His manner before a class or audience is very pleasant. When there is any indication of weariness he intersperses the exercises with singing or instrumental music. He certainly understands the proper methods of teaching the primary branches in the common schools. The following teachers attended the Institute:

Miss Lizzie R. Chapman, Dahlonega.
Miss May Wood, Auraria.
Miss Maude J. Chapman, Land, Hall Co.
Miss Ola Head, Jone's Chapel.
Miss Amanda Cain, Nimblewill.
Miss Lula Biggins, Keystone.
Miss Flora Kitchens, Etawah.
Miss Mayon Sullivan, Woody School House.
Miss Lila Cain, Dahlonega.
Miss Lillie Gurley, Two Run.
Miss Ethel Jones, Oak Grove.
Miss Mattie Gurley, ——.
Mrs. Emily Smith, Auraria.
P. M. Jarrard, Loudsville
W. A. Jackson, Liberty School House, Porter Springs.
D. L. Cook, Zion.
T. W. Seabolt, Damascus church.
B. L. McGee, Oak Grove School House.
M. W. Fitner, Gaddistown.
T. T. Harris, Jackson Co.
W. M. Grindle, Pleasant Ridge.
J. L. Landrum, Martin's Ford.
W. L. Ash, Corrith.
W. P. McGee, Poplar Spring.
Jno. H. Marr, Longtube School House.
M. L. Seabolt, Mountain Grove.
E. H. Jones, Jay.
Bartow Anderson, Dahlonega and Mt. Gillard.
A. W. Cain, Cedar Mountain.
J. J. Seabolt, Yahoola School.
M. C. Chester, Randa.
A. W. Meaders, Watkinsville.
J. W. Chapman, Pleasant Hill.
J. E. Tate, Mt. Pisgah.
W. P. Hightower Dahlonega.
B. A. Bianchi, col., Pidgeon Roost.
W. A. Lacy, col., Dahlonega.
Thirteen ladies; twenty gentleman.

The following committees were appointed:

On Public entertainment, A. W. Meaders, Miss Mattie Gurley, and Miss Lila Cain.

On Resolutions, W. T. Seabolt, M. C. Chester, Mrs. Mattie Gaillard, Miss Lizzie Chapman, and Miss Lula Higgins.

The following subjects were carefully considered by the Institute: Spelling, Reading, Penmanship, Language and Grammar, Arithmetic, History, Geography, also school organization, school government, punishments, study and class management, the recitation, school examinations, reports, miscellaneous. In considering the best mode of teaching Geography, quite an interesting discussion arose as to the effect of the moon on plants and animals. Various opinions were expressed. A number of experiments were cited to show that the lunar influence is on all vegetation as to time of planting, &c. One teacher said that oak boards split on the new of the moon when nailed on would curl up and make the roof of the house look like a "frizzly" chicken. He enquired who it was and what it meant. We were told that he was a missionary preacher who was traveling in the interest of the heathens—asking the poor negroes of Dahlonega, who have to live from hand to mouth—for money to be sent off to foreign countries.

On Wednesday night at the College Chapel a most interesting entertainment was given, to a large audience. There were a number of recitations, of a humorous character. The spelling bee was of exciting interest there being about twenty on each side, consisting of the best spellers. For an hour the contest was close and spirited. Finally four were left on each side, then three, then two, Miss Mattie Gurley of Dahlonega and A. W. Cain, teacher at Cedar Mountain were the last to stand on the floor. Finally Mr. Cain stood alone and the cheers of the audience. Better spelling was never witnessed. Rev. Parks, the enunciator had to select the most difficult words in the old Blu Back, or some would have stood there until mid night.

On Thursday night the College Chapel was about full to witness another Spelling Bee. Prof. Gaillard was chosen enunciator. The teachers were to spell against the town, but there not being enough of the town spellers to contend against thirty two teachers, it was finally decided to have a promiscuous match spelling. Miss Lizzie Chapman and Mr. A. W. Cain made choice of sides. Col. Price, Col. Charters and Rev. Parks were among the spellers, and all three of them missed and retired to their seats. Col. Price went down on emphasize. He says in his early days it was spelled with an S instead of Z.

The contest grew more and more exciting until finally two on each side were left. These were Miss Lizzie Chapman and Mrs. H. M. Smith on one side and Miss Lila Cain and A. W. Cain on the other. Prof. Gaillard ransacked the old Blue-Back in vain to find words to end the contest. It seemed the audience was to be kept there until mid-night unless something more difficult than the spelling book should be used. Finally the unabridged dictionary was brought out, and even that for a time was defied by the four spellers. At last the Professor gave out some Mexican or Spanish words never heard of in this country, and all soon went down except A. W. Cain. He seems to be a walking Orthorapher.

The spelling matches were of great interest to both the teachers and the town folks.

Friday morning was occupied in addresses to the teachers by Col. W. P. Price, Rev. W. A. Parks and Prof. J. E. Dunn. After these addresses quite a number of the teachers stated they had been greatly benefited by the Institute especially the instruction of Prof. Dunn. Some stated that they would return to their schools with new energy and interest is teaching. At the hour of adjournment all joined in singing, "God be with you till we meet again," and the Institute was adjourned with prayer.

The committee on resolutions presented the following which were unanimously adopted:

We, the Teachers of Lumpkin county, here assembled in the Teachers' Institute, learn from the reports made by different teachers during the session of the Institute, that many parts of the county need better school houses and especially houses better furnished with seats and desks. Quite an interesting discussion arose in the Institute concerning the poor facilities for teaching penmanship, one of the most important branches of education. We all know or ought to know that the culture which our Public School System is intended to give, is the sword of success, the armor of defense, and the lever that controls the progress of the world. And as the intelligent farmer with but a limited supply of farming implements, be the season ever so favorable, fails to reap an abundant harvest, so the teacher with the best attainments, without proper facilities for carrying on the great work assigned, fails to accomplish the desired end, and as the improvement in school buildings corresponds to the advancement in civilization and culture:

Therefore, be it Resolved 1st That we entreat the county Board of Education, the patrons of the schools, and the good people of Lumpkin county in general, to co-operate with the teachers in the training for a higher state of existence, the future citizens committed to their charge, by supplying their own children with books and by improving the school buildings that the teachers may be enabled to do more and better work.

Resolved 2nd That, We tender our thanks to our worthy and efficient expert, Prof. J. E. Dunn, who has so ably conducted the Institute, and who has demonstrated, not only to the teachers but to all our visitors that he is the right man in the right place.

Resolved, 3rd That, We tender thanks to the Trustees of N. G. A. College for granting us free access to the college building in which to hold our Institute.

Resolved 4th That, We extend our thanks to the C. S. Com., the members of the Board of Education, and to all the visitors of the town and county who have honored us with their presence and have shown their interest in the cause of education by engaging with us in the Institute work.

Resolved 5th That, We tender special thanks to Rev. W. A. Parks, Prof. and Mrs. B. P. Gaillard for the active interest which they have manifested by their regular attendance and valuable suggestions during the week, also thanks to Col. W. P. Price, Rev. W. A. Parks, Prof. J. E. Dunn and Prof. B. P. Gaillard for the appropriate addresses at the close of the session, impressing us with the noblness and dignity of our high calling, causing the fire of enthusiasm to so burn within our hearts that henceforth we shall place before our pupils an exalted ideal, and keep them "stirred up with high hopes of striving to be brave men, noble women, and worthy patriots, dear to God and famous to all ages."

Beware of Ointments for Catarrh that Contain Mercury.

As mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physcians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally, and made in Toledo, Ohio, by F. J. Cheney & Co., Testimonials free.

Sold by Druggists, price 75c. per bottle. June 5 3m.

Dress Making.

I desire to inform the ladies of Dahlonega and surrounding country, that I am prepared to make dresses in the highest style of the art. Price reduced to suit the times. No dress, silk or wool, over $4.00. Skirts from $1.50 to $2.50. Waists, silk or wool, $2.00 to $2.50. Children's dresses a specialty. Dresses made to order without trying on.

Miss LIZZIE WOODWARD.
Athens St., Gainesville, Ga.

The U. S. Gov't Reports show Royal Baking Powder superior to all others.

A CLEAR HEAD;

good digestion; sound sleep; a fine appetite and a ripe old age, are some of the results of the use of Tutt's Liver Pills. A single dose will convince you of their wonderful effects and virtue.

A Known Fact.

An absolute cure for sick headache, dyspepsia, malaria, sour stomach, dizziness, constipation bilious fever, piles, torpid liver and all kindred diseases.

Tutt's Liver Pills

Auraria Mines on a Big Boom.

Mining in general throughout the section of Auraria is on a boom.

The Hedwig is running on full time and giving satisfactory results.

Bigbee & Co., at the Josephine, are doing extensive work cutting tunnels, overhauling mill races, dam, &c. This work is under the supervision of Mr. W. B. Fry.

Otto C. Seupin, with a large force of hands, are pushing work through on the Kelly ditch, cleaning it out from one end to the other so as to put the water on the Wing. A mill and other tenement houses will be built on this property at an early day.

The Black mine has changed hands and has resumed operation. This mine is a placer and is said to be very rich.

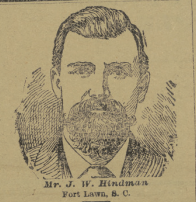

The Laura Neuda or Stewart mine will resume operation at an early day. They are receiving some of their supplies already.

And last but not least, the Williamson Bros. & Richard Q. Graham are doing some placer mining on what is known as the Pope lot which is also giving very satisfactory results.

So you see the precious metal is hunted to considerable extent in this section. REP.

Walls were blown down in Chicago last Sunday, many fires were started and several lives were lost.

Chicago, July 4.—Mrs. Catherine O'Leary, owner of the fractious cow which, in a barn in the rear of No. 137 DeKoven street, on a memorable night in October, 1871, kicked over a lamp and started a blaze which cost Chicago $190,000,000, died last night of pneumonia. She received the last sacrament and passed away peacefully. She has always been very averse to saying anything concerning the fire.

Mr. J. W. Hindman
Fort Lawn, S. C.

Best For the Blood

Hood's Proved Its Merit—Eczema Cured.

"I have used Hood's Sarsaparilla and know it is the best medicine for the blood I have ever taken. Two years ago I had a sore on one of my limbs below the knee.

I Spent Many Dollars

for medical attendance and treatment but all in vain. At last a friend urged me to try Hood's Sarsaparilla. I told him it would not do me any good as I had the best of doctors in this vicinity attend me and they said it was a severe case of eczema. He prevailed upon me, however, to take one bottle and when it was all taken I noted a slight improvement. I have now used six bottles and my leg is well. Had it not been for Hood's Sarsaparilla I do not think I would ever have conquered my complaint." J. W. HINDMAN, Fort Lawn, S. C.

Hood's Pills cure all liver ills, constipation, biliousness, sick headache, indigestion.

Hood's Sarsaparilla Cures

STATE OF GEORGIA, LUMPKIN COUNTY.

David T. Hyden having in due form applied to the undersigned for the guardianship of the person and property of Cora Hyden and Madison Hyden, minor children of Daniel Hyden. Notice is hereby given that his application will be heard at my office on the first Monday in August, next. Given under my hand and official signature, this the 8th day of July, 1895.

F. M. WILLIAMS, Ordinary.

The Park Street Inn.

Located on Park Street, three blocks from the public square. Is open for the accommodation of the traveling public. Either transient or regular boarders will be accommodated at VERY moderate rates. Rooms large and well furnished and the table equal to any hotel in Dahlonega.

CAPT. & MRS. JOSEPH ALLEN,
Prop'rs.

PATENTS
CAVEATS, TRADE MARKS AND COPYRIGHTS.

CAN I OBTAIN A PATENT? For a prompt answer and an honest opinion, write to MUNN & CO., who have had nearly fifty years' experience in the patent business. Communications strictly confidential. A Handbook of Information concerning Patents and how to obtain them sent free. Also a catalogue of mechanical and scientific books sent free.

Patents taken through Munn & Co. receive special notice in the Scientific American, and thus are brought widely before the public without cost to the inventor. This splendid paper, issued weekly, elegantly illustrated, has by far the largest circulation of any scientific work in the world. $3 a year. Sample copies sent free.

Building Edition, monthly, $2.50 a year. Single copies, 25 cents. Every number contains beautiful plates, in colors, and photographs of new houses, with plans, enabling builders to show the latest designs and secure contracts. Address MUNN & CO., NEW YORK, 361 BROADWAY.

BROWN'S IRON BITTERS
Cures Indigestion, Biliousness, Dyspepsia, Malaria, Nervousness, and General Debility. Dyspeptics troubled with Sour Stomach, Heartburn, Flatulency, Loss of Appetite, Nausea, or Dizziness will be relieved by taking one dose of Brown's Iron Bitters. Genuine has trade mark and crossed red lines on wrapper.

The One Crop System

of farming gradually exhausts the land, unless a Fertilizer containing a **high percentage of Potash** is used. Better crops, a better soil, and a larger bank account can only then be expected.

Write for our "Farmers' Guide," a 142-page illustrated book. It is brim full of useful information for farmers. It will be sent free, and will make and save you money. Address,

GERMAN KALI WORKS, 93 Nassau Street, New York.

DID YOU GET YOURS

There were 3,134,934 Packages of HIRES' ROOTBEER sold in 1894, which made 15,675,735 gallons, or 313,494,700 glasses, sufficient to give every man, woman and child in the United States, five glasses each—did you get your share? Be sure and get some this year.

A 25 cent package makes 5 gallons. Sold everywhere.

HIRES' Rootbeer

THE CHAS. E. HIRES CO., Phila.

NIMBLEWILL NURSERY,
Lumpkin County, Ga.

MY Nursery is situated 11 miles N. of Dahlonega. I have made careful selection to get best varieties of fruit, something that will bear full and regular and keep well. Every variety of fruit I am growing has all been tried and found suitable to this climate. All persons wishing to purchase will please send in their orders. I will make it to your interest and will give each order prompt attention.

C. N. PITTS, Proprietor,
Randa, Lumpkin Co., Ga.

DAHLONEGA, JULY 12, 1895.

Highest of all in Leavening Power.—Latest U. S. Gov't Report

Royal Baking Powder

ABSOLUTELY PURE

Razorine sold at the Drug Store.

Mr. Homer Strickland returned to Swainesboro last week.

Farmers were only offered 55 cents for meal last Monday.

Tobacco habit can be cured with No-to-bac at the Drug Store.

Cedar Mountain school begins July 15– A. W. Cain, teacher.

Rev. Mr. Smith, of LaGrange, paid his relatives in Dahlonega a visit this week.

We notice that Capt. Hall represented the Dahlonega Nugget on the recent press excursion.

The mining boom has certainly struck Auraria, judging from what our correspondent has to say elsewhere.

Prof. J. E. Dunn left for Heard yesterday to attend the Institute of that county, of which he was recently elected expert.

Mr. Sherrell, recently superintendent of the Phoenix Gold Mine, near Auraria, took his departure for New Mexico this week.

The time of the reunion of the old soldiers at Dahlonega has not been set yet, but will take place some time in August or September.

Jones & Brooksher have been making some valuable improvements on their store house. A little printer's ink is all that is necessary now to make things complete.

Rev. M. L. Underwood, Presiding Elder, passed through Dahlonega Tuesday on his way to Young Harris to unite in marriage Rev. Loy Warwick and Miss Stephens.

Mr. Call Strickland, who has been down to Suwannee for a number of days, returned to his home last Tuesday without the nuptial knot being tied with any of Suwannee's fair beauties.

Mr. Baker, of Detroit, Michigan, who is largely interested in mining operations of White county, has been down this week looking over the gold fields of Lumpkin, in company with another gentleman.

Miss Nina Harbin, of Fairplay, S. C., and Miss Ica Waters, of Randa, Ga., visited the SIGNAL office last Tuesday evening to see the old reliable press turn out the news to its many subscribers. Such fair visitors are always welcomed.

A gold mine selling for the sum of ten dollars. This seems strange for such a thing to occur in a rich mining section like Lumpkin county, but it is nevertheless true and the sale took place at sheriff's sales in front of our court house on the first Tuesday of the present month. But we will tell you what caused it. Mr. Sherrell, superintendent of the mine, had an account of over fifteen hundred dollars against the company—Phoenix—and no one present wished to give more than this amount for it, hence its going so low.

Mr. James Smith, who resides near the White county line, informed us last Monday that one of the hardest rains ever known to fall visited that section last Saturday one week ago. The rain fell in torrents for two hours and forty minutes raising the water courses at least ten feet in a very short time, sweeping every thing before them. A farmer in Shoal Creek district, White county, had two hundred dozen shocks of wheat washed away, and the damage in the district is believed to be at least $3,000. Another gentleman on Wahoo in Lumpkin county, who had a three-horse crop proposes to take a bushel of corn for his chance. The damages are great and will cause many farmers who anticipated a big yield this fall to be sadly disappointed.

A WOMAN WHO WILL WORK

WANTED in every county to introduce the Celebrated "Hygeia" Waists for all ages. This waist supercedes the corset, and has received the unanimous approval of the leading physicians of America. $3.00 outfit free. An energetic woman can make from $15 to $30 weekly. Send for circulars and terms.

HYGEIA M'F'G Co., 378 Canal St.,

July 5, 3m New York.

Turnip seed fresh, in bulk, cheap at the Drug Store.

Dr. Smith, of New Bridge, was in the city last Monday.

The Seven Miles school will begin the third Monday in July—J. H. Bowers, teacher.

Mr. Harbison, of the Burnside, has been notified by letter that a dozen summer visitors will be at his house to-day.

The little girl of Mr. George Adams', who was bitten by a rattle snake's pilot last week, has about recovered.

It sorter tickles us for a newspaper critic to be seated at a spelling bee by a poor little crippled country school teacher.

Misses Ethel Harris and Mattie Moore left last Monday on a visit to relatives in Jackson county, in company with Mr. T. T. Harris.

Alec. McAfee, who has been in Atlanta for some time, came up on a visit to his parents in Dahlonega last Monday, accompanied by Mrs. W. W. McAfee.

The best way to get a large attendance at Sunday School is to make children stop robbing birds nests and have a Christmas tree at least once every month.

The camp meeting will begin on Monday night before the second Sunday in August. It is expected that there will be quite a number of ministers present, including Rev. T. T. Christian, of Atlanta.

The SIGNAL and Nugget editors are both engaged in mining on a large scale and we may not be surprised at any time to see gold dust quoted at twenty cents per peck, seventy-five cents per bushel or three bushels for $2.50.

Some of our farmers are getting behind on account of so much wet weather. Hicks has certainly missed it by saying that the first of July would be dry unless he didn't intend to include Dahlonega and Lumpkin county in his predictions.

Some weeks ago in refering to a case in court the name of Eliza Davis appeared, which is a mistake. It was another Davis. Miss Eliza is one of the highly respectable daughters of Mr. James L. Davis, whose character is perfectly spotless.

Saturday, 20th of July is the time appointed to work on the camp ground. Bring axes, mattocks, &c. It is requested that the tents be cleaned out at the same time so as to get rid of the numerous fleas that may be hopping around.

Mrs. Martha Cain, of Dahlonega, brought to our office this week a summer turnip weighing four pounds measuring twenty-two inches, which she raised in her garden. It was perfectly firm and the nicest one we have seen this year. The good lady also subscribed for the SIGNAL while in the sanctum.

The Dahlonega District Conference will convene at Clarkesville July 31st, and include the first Sunday in August. The following are the delegates from the Dahlonega pastoral charge: Rev. W. A. Parks, pastor, Rev. W. M. D. Bond, Rev. N. F. Howard, Rev. W. H. McAfee, Rev. A. F. Norton. From the Quarterly Conference: M. G. Boyd and J. E. Dunn. From Dahlonega church: John H. Moore. Auraria: J. A. Hollifield. From Jones' Chapel: A. L. Wimpy.

MARVELOUS RESULTS.

From a letter written by Rev. J. Gunderman, of Dimondale, Mich., we are permitted to make this extract: "I have no hesitation in recommending Dr. King's New Discovery, as the results were almost marvelous in the case of my wife. While I was pastor of the Baptist Church at Rives Junction she was brought down with Pneumonia succeeding La Grippe. Terrible paroxysms of coughing would last hours with little interruption and it seemed as if she could not survive them. A friend recommended Dr. King's New Discovery; it was quick in its work and highly satisfactory in results." Trial bottles free at R. G. Cartledge's Drug Store. Regular size 50c. and $100.

Miss May Cartledge left last Saturday on a visit to Gainesville.

Pleasant Hill school opens the third Monday in July—Miss Sallie Reid, teacher.

A republican representing a democratic newspaper, is the latest news in Dahlonega.

Dahlonega is again without a dentist, Dr. Bosworth having left for his home in Atlanta last Saturday.

Mr. Turner Quillian and lady, of Hall county, spent last Saturday and Sunday with relatives in Dahlonega.

Mr. Albert Henderson, of White, was down to see his Dahlonega friends Wednesday as lively and jovial as ever.

A shoemaker discontinued his paper this week because the devil bought an iron last to mend his shoes on. Such is life.

The funeral of Robert Hulsey will be preached at Etowah church on the 4th Sunday of the present month, by Rev. Mr. Robertson, of Forsyth county.

When we hear of any reliable railroad news our readers will be sure to get it. We will be as far from keeping it from our readers as a woman is about what she hears her neighbor say.

Last Monday while Mr. Polk Lance was out near his house looking for young hawks he discovered a large snake up in a tree. He brought it down with his gun and found it to be a five-year-old rattler as large as his wrist.

To-day our foreman is ten, ten, double ten years of age and he expects a big time. He has made arrangements by which he will be able to celebrate his birth day by drinking a cup of sweetened vinegar and strike a whole box of matches.

Doubtless Mr. F. L. Arrendale, who moved from Dahlonega to the state of Missouri last year would prefer being back in old Lumpkin just about now, as we learn that the small pox has broke out in that section and that Mr. Arrendales's house is quarrantined.

There is fun in store for to-day. The same stove which George Sisum one month ago heat up so as to burn the officer, is advertised to sell to-day at ten, and as to what scheme George will take to save his cooking apparatus from being carried to the court house and sold is not yet known.

Mr. Robert Hunter, who has been in Dahlonega for some weeks, took his departure for the Black Hills last Monday. Mr. Hunter has been there twice before and represents it as being a good country. The wages of common laborers are $2.50 per day, but board cannot be had for less than $1 per day.

Mr. W. R. Crandall, superintendent of the Chestatee mine, spent the most of last Sunday in Dahlonega. Mr. Crandall is pushing things right ahead with apparently good results. This mine is not on the market and the superintendent is just as far from telling what he makes at a clean up as a merchant is on the cost of a bolt of goods.

We are informed that the council anticipates cutting down the hill in the street back of Mr. McAfee's and making a fill in the street at the old tan yard. This back street is hardly ever needed and will not be traveled by more than one person and that not oftener than a single trip a week after an expenditure of $75, but it will help keep up taxes and give employment to a few choice friends.

We are informed that James Edmonson, who was so annoying to the people of Crumby's district, in this county, about a couple of months ago, has been heard from and is in Washington City. Probably Jim has changed his politics to that of a democrat and has visited Washington with the expectation of being employed to help keep Coxey off the grass.

Pleasant Valley school, Gaddistown, begins 15th inst.—M. W. Pitner, teacher.

Mrs. G. C. Wallace, of Jay, spent several hours in Dahlonega last Saturday.

Men have been engaged for several days cleaning out and repairing the Hand ditch.

A man in Dahlonega sued another one for fifty cents. This proves that the better times which all the orators told us about are right here and that the morning glory of prosperity is in full bloom.

The Mayor informs us that the council will not take any steps as to the school question in Dahlonega this year as there is a defect in the recent act in reference to the matter, which will have to be amended first.

Meat is retailing in Dahlonega at 10 cents per pound and at Auraria, only 8 cents, and everything else in proportion. Our merchants could make a handsome profit on their goods by purchasing them in Auraria, as a team could make two trips a day to the latter place.

The first water, under the new management, was put on the celebrated Preacher lot last Thursday afternoon, and the mill has been running both day and night ever since and the plates are showing up well and the owners, Messrs. Harris, Moore, Clements and Murray, are expecting a big clean up.

Wednesday evening of last week while Dr. Weld was purchasing his fire works to be used on the glorious 4th, he exploded a few crackers to see if they were good, little thinking that he was violating the rules and regulations of the town on an occasion like this, but the marshal notified him that he had and the Dr. went to the Mayor and made everything satisfactory by paying two dollars and "trimmings."

One of the healthiest men on the globe—Wm. Franklin—left last Sunday to cast his lot with the people of Ellijay, notwithstanding it was pouring down rain and him and his family were all a foot. Uncle Bitte was of no benefit to the physicians of Dahlonega as he was over 70 years of age and never used a bit of physicians medicine in his life. The old man was very poor and inoffensive and if he is not able to do the Ellijayites any good he will be sure to do them no harm.

In the absence of Mr. Jarrard, who resides in the old academy building, Saturday night, some one made an effort to enter his house. Mrs. Jarrard heard them step up on the porch and was expecting them to knock at the door. While listening she heard them begin to raise the window sash when she raised the alarm and Mr. John Brooksher, living in the next house, went over as soon as possible but the party had disappeared and no one could be seen.

Last Friday night between 12 and 1 o'clock at least a dozen of our citizens were aroused by a couple of strangers who claimed that they wanted something to eat. After eating at Mr. John Riders they called at Mrs. James Rices' and ordered another meal. While Mrs. Rice was preparing supper she asked them if they were in search of work. One said yes, while the other one answerad "no! By – , we want money." The lady told them that she thought that they had come to a poor place to get it. "Yes," says one, "I think by — we have." Both the men seemed to be intoxicated. Detective Abe Anderson was not on duty that night, else they might have been forced to give a more satisfactory explanation.

40 YEARS THE STANDARD.

Mr. B. F. Anderson who has been absent from home for some time, returned last Tuesday "right side up with care."

We are indepted to Rev. W. A. Parks for the report of the Teacher's Institute to be found elsewhere, which is complete and very interesting.

Mrs. Jane Grizzle, mother of tax receiver Grizzle, died in Yahoola district last Tuesday, aged about 80. She was a good kind hearted old lady and had been a member of the Baptist church many years.

The hands at the Findley mine all signed a petition last week asking the owner, Mr. Wahl, to give them checks every Saturday instead of turning their time in at the Hall Commissary. We are informed that Mr. Wahl has signified his intention of doing so, commencing the first of August. This will permit the hands to trade any where they choose.

Last Saturday Mr. Charley Besser fainted in the barber shop. The barber had just finished cutting the old gentleman's hair when he fell over and presented a death like appearance until physicians could be summoned and administer restoratives. Mr. Besser was carried to his room and recovered sufficiently to be up next day and at this time writing is enjoying his usual health.

One day last week while a girl of Kim Walker was working in the field at the foot of the Blue Ridge, she stood on a large rock near an old stump long enough to hoe a hill of corn. Just after stepping off of the rock she heard something behind her and looked back, when she saw crawling from under the same rock she stood upon, a rattle snake's pilot three feet long and as large as a chair post, which had come out to see what had been molesting the shelter of its den.

We were asked this week if we were going to make a note of the parties drinking Saturday night. No. Because when some of the bon tons of the town get on a "gentleman's drunk" we do not expose them, and when a poor fellow indulges in the old way, every one can see for themselves. A drunk is a drunk the world over. The only difference is a poor fellow lays himself liable to be put in the calaboose or jail, while the rich one subjects himself to be carried home—if so full that his heels fly up—into some private room.

Messrs. Davis, Watts and Rice, deposit miners on the Tan Yard branch, made a splendid clean up last Saturday making over twenty dollars each clear of expenses. "Choctaw" Davis decided he would mix his purchases for the evening and help out the poor printer a little and ordered us to send him the SIGNAL for a year so as to keep posted in local matters and all important general topics of the day. Jim said he would not be by the paper like he was by the first umbrella he ever purchased, carry it home and not use it but aimed to peruse its columns. He said when he purchased his first umbrella he used it to walk with, and while ascending the Blue Ridge a heavy rain was seen approaching. He hastened on up the mountain to take shelter under the roof of a little house which stood on top, but before he reached the building the rain came and he got perfectly wet. He passed on by the house without going in for he was too wet to even sit down to rest. In a short while he thought of his umbrella for the first time which he carried in his hand.

Foster Thomaston, of Union county, was bound over in a bond of $1,000, charged with whitecapping, last Saturday by Com. Baker, who made the bond and returned to his home that night. Foster has been sick and claimed not to be well enough to be tried since the whipping of Phillips, but he made the trip and stood the trial all right. Abe Woody, also of that county, and who is charged with the same offense, sent word to Marshal Harbison that he was ready to give up if he would come after him, and the officer went over after him Monday but Abe had changed his mind and didn't show up. So to keep from coming back without any game at all, Mr. Harbison brought over another fellow who was tried and acquitted, charged with illicit distilling.

We are informed that a petition is in circulation in Dahlonega asking that the Gainesville & Dahlonega daily mail schedule be changed so that the mail can depart at 8 o'clock, a. m., instead of 9.

Notwithstanding the inclement weather last Sunday very interesting services were held at the old Armicalola camp ground to the delight of every one present—Presiding Elder Underwood and Rev. A. Parks conducted the meeting.

The board of education met last Tuesday and fined about half a dozen teachers one dollar each for absenting themselves from the recent session of the Institute, which of course will not be required of any who may have a legal excuse. This is a very light penalty, which is much easier to settle than a five days board bill.

A pressed brick was found on one of Dahlonega's main streets having "Fr. Pfeiffer, Gainesville, Ga.," stampped on it, the other day. How it got here no one can tell for no brick have ever been bought in that city and brought to this place. It may be that some horseman who was on his way to Dahlonega desired to bring along a jug of the dry town liquor and had to put this brick in one end of the sack to make it balance.

As stated in last week's paper the present council has adopted a rule compelling street tax payers to work out their own tax else pay the money—no substitute allowed. Notwithstanding this Mr. Lewis Cochran made arrangements to put a hand in his place this week in the person of Allen Beck, an abled bodied man. While at work the second day Al. told some of the hands who he was at work for. This reached the ears of the marshal and he notified Mr. Cochran Tuesday that Beck's services were needed no longer as he had exposed him and now a hundred would be after him wanting to work. So now this gentleman has to work out the rest of his tax else pay the money over to the marshal and let him do the hiring. Some of the hands tell us that they can settle off their street tax at the Hall Commissary but as Mr. Cochran has no interest in the concern nor no time turned in there, he will have to make other arrangements. The last street tax ordinance published, which is law until it is repealed and another one passed and published, reads as follows: "All persons who are liable to pay street tax shall have the privilege or option of paying the money; or they may in lieu thereof pay the same in work at the usual price paid for labor."

Doubtless many poor old soldiers are suffering to-day because a delay had to be made by the state in rendering them assistance until the convening of the next legislature. There is in existance now a law which allows the ordinary to render them assistance without them having to go to the poor house, but the amount is so small, if all counties are like Lumpkin, that none of these old veterans will ever be troubled with nightmare. Their allowance is a little meal and coffee—no flour—never get to eat a buscuit unless they visit some friends house. They have fought for their country, done all they could, misfortune has brought them to want, old age and affliction is upon them and they must now go down to their graves in need of the necessaries of life. One of them who can scarcely walk even with a stick, told us the other day that he had received only $3.50 since the first of April. Think about it—just getting enough to keep him from starving to death, and barely enough to keep his stomache from thinking that his throat is cut.

NOTHING STRANGE.

Intelligent people, who realize the important part the blood holds in keeping the body in a normal condition, find nothing strange in the number of diseases that Hood's Sarsaparilla is able to cure. So many troubles result from impure blood that the best way to treat them is through the blood, and it is far better to use only harmless vegetable compounds than to dose to excess with quinine, calomel and other drugs. By treating the blood with Hood's Sarsaparilla, scrofula, salt rheum and what are commonly called "humors," dyspepsia, catarrh, rheumatism, neuralgia, consumption and other troubles that originate in impurities of the blood or impaired circulation, can all be cured. July 5 1m.

Dr. Price's Cream Baking Powder
World's Fair Highest Award.

School begins at Liberty school house next Monday, 15th—W. A. Jackson, teacher.

Ordinary Williams has just received his files of the SIGNAL nicely bound, making 21 years in all of this old reliable paper now in his office.

The clipping editor of the Atlanta Constitution copied nearly every thing in last week's SIGNAL except the ads., Monday, and marked them "special to the Constitution."

Last Saturday a little five-year old daughter of Mrs. Julia Fricks, of Nimblewill district, complained that one of its toes hurt. It grew more painful until its whole body commenced hurting and the little one suffered intense misery until its death on Monday. Cause not known.

Col. Price, after many years has got rid of some troublesome tenants, but had to tear the house down—that is what was left—to do it. There were three rooms to the building. They used one to cook and eat in, put the cow in the second one and the old sow in the third and let the chickens roost up on the mantle. The old red rooster answered as an alarm in the absence of a clock, and when it crowed at 3:30 a. m., some of the family arose, pulled off a ceiling plank and had a fire by daylight.

An Old Confederate Flag.

The SIGNAL announced a few weeks ago that Col. W. P. Price, during his recent visit to the battle-fields of Fairfax county, Va., had found a flag which belonged to the Regiment to which he was a member—the Second South Carolina Volunteers. The flag was entrusted to Miss Nannie Thomas, of Fairfax C. H., by the gallant Col. J. B. Kershaw, now deceased, some time after the battle of the First Manassas. Miss Nannie was the neice of James W. Jackson, of Alexandria, who killed the Colonel of the N. Y. Zovave Regiment and was himself immediately shot down. This young lady was often at the dress parades of the company, and became a general favorite with the command. Her father lived at Fairfax and was a prominent lawyer and citizen of Virginia. The flag has been preserved all these thirty years, and has been presented to Col. Price by the two daughters of Mrs. Nannie Eglin, formerly Miss Thomas—the Misses Julia and Ethel Eglin (their mother having died six or seven years ago), in turn to be given over to Pulliam Camp of Veterans, at Greenville, S. C. This will be done as soon as it is convenient for Col. Price to do so in person.

The young ladies live near Lewisville, Va., where Col. Price received a wound during the war. The flag was expressed from Vienna, Va., a little railroad station, where there was much fighting during the war, the first serious fighting in Virginia having occurred there between South Carolinians, under Col. Maxey Grigg, and federal forces under Gen. Schenck, of Ohio, the latter troops suffering heavily. It was to this place Col. Price was carried when wounded. He informs us that he saw the house where he lay—a wounded soldier—thirty-four years ago.

At first, and for quite a while, the Misses Eglins were unwilling to part with this war relic, as their mother, who died a few years ago, had so diligently cared for it during more than a quarter of a century. Some gentle diplomacy was used by Col. Price in the matter, and the flag was surrendered to him a few days ago for the purpose of its preservation by the veterans who fought under it, and by their sons in time to come.

It bears evidence of having often been carried through "the eminently deadly breach," several bullet holes appearing in its folds.

Col. Price will have the flag at his office where it can be seen until it passes into the keeping of the veterans at Greenville, S. C.

HEADACHES FOR FIFTEEN YEARS.

"For the last fifteen years I have been troubled with headaches every two or three days, and nothing that I could find gave me any relief. I could not eat, sleep or work. I was recommended to try Hood's Sarsaparilla and did so, and after taking three bottles my headaches left me, and I could eat anything I wished." T. F. Scott, Jekyl Island, Brunswick, Ga.

Hood's Pills cure billiousness, indigestion.

TO GEORGIA FARMERS.

Commissioner Nesbitt's Regular Letter About the Crops.

LAYING BY TIME NEAR AT HAND.

Corn Should Not Be Planted After July 1 For Forage Even—Peas and Amber Cane Are More Certain Crops at This Late Date—The Irish Potato Crop About Ready—The Fall Crops.

On most farms "laying by" time is near at hand, but we cannot be bound by ironclad rules in this any more than in other details of farm work. So much depends on "wind and weather" and the present condition of the growing crops. For instance, on those lands which produce a luxuriant growth of weed with late development of fruit, the conditions indicate that early laying by will tend to establish the proper equilibrium between growth and fruit. When we cease plowing we check this [illegible] growth, which is unfavorable for [illegible]king on of fruit. Experience has demonstrated this fact and also that as a rule when we stop the plow the growth is checked and the fruit begins to form. Such cotton therefore as is developing foliage at the expense of fruit, should be laid by very early, and with care to take out every particle of grass. The plow is so set as merely to shave off the surface, any root pruning now is almost fatal. A 24 inch scrapor with a very short scooter bolted on in front, if the land is in good condition, will do the work with one trip to the row. If, however, the land is foul more heroic treatment is necessary and we will have to bear the consequent shedding and loss from the necessary disturbance of the roots.

Where there are no indications of this exuberant foliage growth, that is, where the development of fruit and foliage is well balanced and the cotton is in good growing condition, it may be advisable to continue the cultivation into August. In this condition of the the plant the growth and fruiting go on together and our object is to encourage both by cultivation, always very shallow at this season. As a rule squares formed from the first to the last of August stand a fair chance to develop bolls.

CORN.

It will be too late after the first part of July to plant corn for forage even. If any is planted during that period either for grain or forage it should be on rich bottom land. At this late date peas and amber cane are a far more certain crop for forage, as they can be planted up to the first of August, and if the land is rich, will mature excellent forage. If preferred, however, corn may still be planted on the rich bottoms, and if put in at once stands a reasonable chance of maturing the grain. Put in after the tenth or fifteenth we can expect only forage.

The main crop of upland corn is practically laid by, and from all sections comes the cheering news that the farmers are appreciating the necessity of sowing peas broadcast or in the center furrow at the last plowing. This practice will not only furnish food for our rapidly increasing dairy stock, but will insure the all important

HUMUS

of which our worn lands stand so much in need. I use the term "worn" advisedly, for these same soils subjected to analysis show that they are very far from being "exhausted." It is only the top soil which has been deprived of its food producing elements. Just underneath the first few inches lie vast deposits of subsoil, nitrogen, phosphoric acid and potash, which heretofore the farmer, except in rare cases, has utterly failed to appropriate, because they were practically unavailable. But science and experiment have demonstrated the truth, and now we know both the importance of supplying humus to the soil and of plowing deep to expose these subsoil deposits to atmospheric influences. As soon as we supply the necessary humus the chemical action begins, and in the course of decomposition these otherwise inert matters are set free and made available for our growing crops. It has been demonstrated again and again that the most profitable form of supplying this humus is not by plowing under the renovating crop, because that is a prodigal waste of most valuable animal food. We throw away that which would make meat, milk and butter. The most economical plan is to cut and save these crops, turn under the stubble and and by feeding the cured products to our live stock they thus become a source of double profit. We sell the products of our stock, and the manure, solid and liquid, properly preserved, furnishes additional humus of the most valuable quality. This subject is worthy of the most careful study. Those men who have grasped this important truth and are acting upon it are rapidly forging to the front and are today our most successful farmers. Practically none of the plant food has been abstracted from our subsoils. Vast deposits lie there awaiting the processes which shall gradually release them and furnish material for the crops of succeeding generations. As bearing directly on this interesting question, and in confirmation of the above statement, I copy the following from the Ohio experiment station:

"The clay soil in which wheat had been grown continually for six years past was analyzed with the result that the upper foot of soil showed nearly 20,000 pounds of potash per acre and about 5,000 pounds each of nitrogen and phosphoric acid."

Of course the quantity of these deposits varies with the soil, but all soils, even the most unpromising have more of these elements than our crops will take up for many years to come. The problem for the farmer is how is best and cheapest to appropriate them.

SWEET POTATOES

may still be set out, and if a rapidly maturing variety like the St. Domingo is used, the plantings may continue until August. The

IRISH POTATO CROP

will be ready for gathering this month. See that this is done early in the morning or late in the afternoon, and gather up the potatoes before they are exposed to the direct rays of the sun. In preparing for the fall crop, now becoming a very important one to the south, select the medium sized, smooth tubers for seed. Spread these in the shade, under a house if convenient, is an excellent place, until dry.

After drying, bed these, as we do sweet potatoes for slips, except that no manure is used and the bed must be level. Cover with about two inches of soil and leave for about two weeks. If the weather should be dry an occasional watering is an advantage. At the end of two or three weeks those potatoes which have sprouted can be relied on to produce plants, they should not be cut but planted whole. Those which have not sprouted should be rejected, but still can be used for the table.

In preparing the land run the furrows about 2 1-2 or 3 feet apart, broad and deep, by going two or even three times in the same furrow. If the land is rich no fertilizer is necessary. If not, use a commercial fertilizer in which potash and phosphoric acid predominate, and mix thoroughly with the soil. Very thoroughly decomposed stable manure will also answer, but it should not come in contact with the potato. Plant the potatoes in the bottom of the furrow and cover light[illegible], gradually filling up the furrow during cultivation, which should be such as to keep down all weeds and grass. This for field culture; the same for the garden plot, except that after the potatoes are planted and covered, the whole bed may be covered several inches deep in leaves, chaff or pine straw.

FALL CROPS.

It is well to decide on our fall crops and prepare for them as far as possible. If the land to be planted is now unoccupied, nothing is more effectual than peas, broadcast or cultivated, for destroying all foreign growth, and its valuable fertilizing properties make this crop a most important adjunct to all grass, clover or grain crops. After taking off the hay turn under the stubble, harrow and roll to bring to as fine tilth as possible.

DESTROYING WEED SEEDS.

Another important office which this late planting of peas effects is the destruction of many troublesome and noxious fall weeds. In allowing these weeds to perfect seed we lay the foundation for trouble not only the following year, but for years to come, for all weed seeds do not germinate the year after they fall. Some are buried too deep and some too shallow, and year after year they come to the right conditions for germination; they spring up, thus causing the farmer additional trouble and work. The safest plan is to destroy them before they scatter their seeds for future weed crops.

FALL OATS.

Don't put off the sowing of oats until spring. Make ready and resolve to sow in time. We have found the Appler rust proof, early and productive. Begin now, and have everything in readiness to put in a heavy fall crop. September is none too early to begin.

FARMERS' PRIZE CLUBS AND AGRICULTURAL FAIRS.

July is the farmer's breathing spell, coming as it does between the steady strain of preparation, planting and cultivation, and the gathering of all the crops, and now we have opportunity to meet together, and while enjoying the pleasant social gatherings, discuss plans and results and compare notes. We note with pleasure the revival in many parts of the state of the old time county clubs and fairs. None except those who have participated in them can form any conception of the pleasure and the profit to be derived. They not only encourage the social element by bringing the members together, but furnish subjects of common and general interest, the practical results of which are better crops, better and cheaper home raised meats, and a general dissemination of the best and most economical plans. Let these clubs be formed in all sections of the state, to meet once a month, compare notes, discuss developments as they rise and decide on plans for meeting them. Let the discussions include field, garden, orchard and vineyard crops, with the products of the dairy, poultry yard, apiary and any other industry which can be made profitable and thus add to our resources. Prizes should be offered in every department. The competition thus engendered often results in valuable discoveries. For instance, in a recent experiment among club members in raising big hogs, and in deciding on the cheapest food for hogs the cost varied from three to six cents. A wide margin and a difference which could but result in valuable information to the higher priced hog raiser.

Discreditable and Disgraceful

IS WHAT LIVERPOOL MEN SAY OF AMERICAN COTTON PACKING.

LIVERPOOL, June 19.—The cotton association of this city protested to the Mersey dock board against excluding cotton from the reduction in charges recently made, on the pretext of risks and excessive expenses. The board replied that Surat cotton did not involve trouble or risk; but American cotton, besides its liability to fire, was badly packed. And the bales were needlesly bulky, occupying a large space compared with other produce.

This was discreditable and disgraceful. Nevertheless the finance committee of the board would consider whether reductions in the charges on cotton were possible.

I insert the above just as it was sent from Liverpool, to show our farmers exactly what is thought of the condition of our cotton by the men on whom we are dependent for the fixing of the price.

It is to be hoped that the efforts now being made for smaller and more uniform size of bales, and for more careful methods of packing and shipping will meet with ultimate success. Once these reforms are accomplished we will no longer bear the reproach of shipping the most unsightly and ragged bales received in the markets of the world with the consequent loss in actual dollars and cents. I must not close this article without referring to the

Every Honorable Veteran

DESERVES HIS PENSION,

And the Torn Limb is Not the Only Reason for a Government Reward, Either.

From the Lewiston, Me., Journal.

Samuel R. Jordan has always lived here in New Portland. He is an honorable citizen, and as a veteran deserves the best care his Government can give. It is true he was not wounded in the war, it is also true he there contracted the seeds of a disease, compared to which a mortal wound would have been a kindness. We all know him, and when he was stricken with paralysis, or locomotor ataxia as the physicians said, we saw him deprived of the use of his legs, a helpless, hopeless burden, a care to his friends and despairing of life. He has done everything he could do to effect relief, has had the best medical skill attainable, and yet his lower limbs were as dead as a dried limb, and a pin or knife stuck into them was not felt. The nerves were dead. But all this is now changed, and it all came about through the recommendation of Al. Parlin, of Madison, Me., a brother veteran. It seems Parlin had been cured of spinal trouble and malaria (and, by the way, paralysis is produced by some spinal affection) by a new food called Dr. Williams' Pink Pills, and he urged our friend Jordan to try them. Jordan did so, and all his old friends were wild with joy at the result. The pills seem to have put new life into him and to have built up his dead nerves as a starving man is built up by good meat. Jordan is now so well, he walks all over and without crutches or cane and is the happiest man alive. All his old comrades of Company A, Twenty-eighth Maine Volunteers, will rejoice with him.

An inquiry by the reporter disclosed the fact that the pills above referred to are in fact a great remedy and seem to have a sale nearly all over the world. The druggists all about here have them for sale at 50 cents per box or six boxes for $2.50 (never by the dozen or 100). They are made by the Dr. Williams' Medicine Company, Schenectady, N. Y.

Messrs. John F. Stratton
Dear Sirs—I am pleased to be able to state that I can highly recommend your Banjos and Strings for durability and tone. Your orders for them should be tremendous.
Yours truly, CARL THORBAHN.

$500,000,000

Represents the net shrinkage in property value in the South and West, according to the tax returns officially recorded, for 1894, as compared with 1893.

A decisive contest is to be fought between now and the next Presidential election for

FREE COINAGE

THE PEOPLE'S MONEY—the coinage of both gold and silver, without discrimination, which means the free coinage of both as opposed to the policy of contraction, which has been dictated by England and adopted in Washington, and which levies tribute on every product of the farm, on valuations of all kinds and on all compensations for labor.

THE GREAT ISSUE NOW is the double standard against the single standard—the use of both gold and silver as standard money metals against keeping the currency of the country on the gold basis.

The ATLANTA WEEKLY CONSTITUTION

published at ATLANTA, GA., and having

A CIRCULATION OF MORE THAN 156,000, chiefly among the farmers of the country, and going to more homes than any weekly newspaper published on the face of the earth, is

The Leading Champion of the People in all the great contests in which they are engaged against the exactions of monopoly.

THE CONSTITUTION IS THE BIGGEST AND BEST WEEKLY NEWSPAPER published in America, covering the news of the world, having correspondents in every city in America, and in the capitals of Europe, and reporting in full the details of debates in Congress on all questions of public interest. It is

THE GREAT SOUTHERN WEEKLY NEWSPAPER, and as the exponent of Southern opinion and the purveyor of Southern news it has no equal on the continent.

An enlargement of 12 columns. To meet the demands upon its space for news, The Constitution will increase its size during the summer to 12 pages, 7 columns, making 84 columns each week.

THE CONSTITUTION'S SPECIAL FEATURES are such as are not to be found in any other paper in America.

The Farm and Farmers' Department, The Women's Department, The Children's Department, are all under able direction and are specially attractive to those to whom these departments are addressed.

Under the editorial management of CLARK HOWELL, its special contributors are writers of such world-wide reputation as Mark Twain, Bret Harte, Frank R. Stockton, Joel Chandler Harris, Betsy Hamilton, and hundreds of others, while it offers weekly service from such writers as Bill Arp, Sarge Plunkett, Wallace P. Reed, Frank L. Stanton, and others, who give its literary features a peculiar Southern flavor that commends it to every fireside from Virginia to Texas, from Missouri to California.

During the whole delay and failure to bring the promised relief in financial matters The Constitution has heralded, in season and out, the full news. It has given plain editorial utterances upon the effect of the trimming and misguided policy of wreckage and more bonds, which events have shown to be prophetic in their unerring directness.

STRAIGHT, CLEAN, UNTRAMMELLED,

THE CONSTITUTION Salutes the free people who insist that the servants of the people shall not become their masters.

By special arrangement the paper publishing this announcement will be clubbed with THE CONSTITUTION at the remarkably low rate announced elsewhere in this issue.

THE GREAT SOUTH AMERICAN

NERVINE TONIC

AND

Stomach and Liver Cure

The Most Astonishing Medical Discovery of the Last One Hundred Years.

It is Pleasant to the Taste as the Sweetest Nectar.
It is Safe and Harmless as the Purest Milk.

This wonderful Nervine Tonic has only recently been introduced into this country by the Great South American Medicine Company, and yet its great value as a curative agent has long been known by the native inhabitants of South America, who rely almost wholly upon its great medicinal powers to cure every form of disease by which they are overtaken.

This new and valuable South American medicine possesses powers and qualities hitherto unknown to the medical profession. This medicine has completely solved the problem of the cure of Indigestion, Dyspepsia, Liver Complaint, and diseases of the general Nervous System. It also cures all forms of failing health from whatever cause. It performs this by the Great Nervine Tonic qualities which it possesses and by its great curative powers upon the digestive organs, the stomach, the liver and the bowels. No remedy compares with this wonderfully valuable Nervine Tonic as a builder and strengthener of the life forces of the human body and as a great renewer of a broken down constitution. It is also of more real permanent value in the treatment and cure of diseases of the Lungs than any ten consumption remedies ever used on this continent. It is a marvelous cure for nervousness of females of all ages. Ladies who are approaching the critical period known as change in life, should not fail to use this great Nervine Tonic almost constantly for the space of two or three years. It will carry them safely over the danger. This great strengthener and curative is of inestimable value to the aged and infirm, because its great energizing properties will give them a new hold on life. It will add ten or fifteen years to the lives of many of those who will use a half dozen bottles of the remedy each year.

A SWORN CURE FOR ST. VITUS'S DANCE OR CHOREA.

CRAWFORDSVILLE, IND., May 19, 1886.
My daughter, twelve years old, had been afflicted for several months with Chorea or St. Vitus's Dance. She was reduced to a skeleton, could not walk, could not talk, could not swallow anything but milk. I had to handle her like an infant. Doctor and neighbors gave her up. I commenced giving her the South American Nervine Tonic; the effects were very surprising. In three days she was rid of the nervousness, and rapidly improved. Four bottles cured her completely. I think the South American Nervine the grandest remedy ever discovered, and would recommend it to everyone. MRS. W. S. ENSMINGER.
State of Indiana, Montgomery County, } ss:
Subscribed and sworn to before me this May 19, 1887. CHAS. M. TRAVIS, Notary Public.

CRAWFORDSVILLE, IND., June 22, 1887.
My daughter, eleven years old, was severely afflicted with St. Vitus's Dance or Chorea. We gave her three and one-half bottles of South American Nervine and she is completely restored. I believe it will cure every case of St. Vitus's Dance. I have kept it in my family for two years, and am sure it is the greatest remedy in the world for Indigestion and Dyspepsia, all forms of Nervous Disorders and Failing Health from whatever cause. JOHN T. MISH.
State of Indiana, Montgomery County, } ss:
Subscribed and sworn to before me this June 22, 1887. CHAS. W. WRIGHT, Notary Public.

INDIGESTION AND DYSPEPSIA.

The Great South American Nervine Tonic

Which we now offer you, is the only absolutely unfailing remedy ever discovered for the cure of Indigestion, Dyspepsia, and the vast train of symptoms and horrors which are the result of disease and debility of the human stomach. No person can afford to pass by this jewel of incalculable value who is affected by disease of the Stomach, because the experience and testimony of thousands go to prove that this is the ONE and ONLY ONE great cure in the world for this universal destroyer. There is no case of unmalignant disease of the stomach which can resist the wonderful curative powers of the South American Nervine Tonic.

Harriet E. Hall, of Waynetown, Ind., says: "I owe my life to The Great South American Nervine. I had been in bed for five months from the effects of an exhausted Stomach, Indigestion, Nervous Prostration and a general shattered condition of my whole system. Had given up all hopes of getting well. Had tried three doctors with no relief. The first bottle of the Nervine Tonic improved me so much that I was able to walk about, and a few bottles cured me entirely. I believe it the best medicine in the world. I can not recommend it too highly."

Mrs. M. Russell, Sugar Creek Valley, Ind., writes: "I have used several bottles of The South American Nervine Tonic, and will say I consider it the best medicine in the world. I believe it saved the lives of two of my children. They were down and nothing appeared to do them any good until I procured this remedy. It was very surprising how rapidly they both improved on its use. I recommend the medicine to all my neighbors."

Mrs. Ella A. Bratton, of New Ross, Indiana, says: "I can not express how much I owe to the Nervine Tonic. My system was completely shattered, appetite gone, was coughing and spitting up blood; am sure I was in the first stages of consumption, an inheritance handed down through several generations. I began taking the Nervine Tonic and continued its use for about six months, and am entirely cured. It is the grandest remedy for nerves, stomach and lungs I have ever seen."

Ed. J. Brown, Druggist, of Edina, Mo., writes: "My health had been very poor for years, was coughing severely. I only weighed 110 pounds when I commenced using South American Nervine. I have used two bottles and now weigh 130 pounds, and am much stronger and better than have been for five years. Am sure would not have lived through the Winter had I not secured this remedy. My customers see what it has done for me and buy it eagerly. It gives great satisfaction."

The Drunkard's Hell.

It was on a dark and starless night,
I saw and heard an awful sight.
The lightnings flashed loud thunders rolled,
Above my benighted soul.

I raised my head and saw below,
Where all the dying drunkards go.
My awful thought no tongue can tell—
Is this my place the drunkards hell?

I started on, got there at last,
And thought I would take a social glass,
But every time I stirred it well,
I thought about the drunkard's hell.

I dashed it down and left the place,
Determined to find redeeming grace,
I bowed my knees to Jesus there,
Poured out my griefs in humble prayer.

That very moment grace begun,
Ten thousand joys around me sprung,
I felt like Paul who once did pray,
When I felt my sins were washed away.

I started home to change my life,
And see my long neglected wife;
I found her weeping over the hell,
Because her infant babe was dead.

I told her not to mourn or weep,
Because her babe had gone to sleep.
Its little soul has fled away,
To dwell with Christ in endless day.

I took her by her pale white hand.
She was so weak she could not stand,
I laid her down and breathed a prayer,
That God would bless and save us there.

I started on to the christian hall;
To take a pledge among them all,
They met me with a welcomed hand,
To receive me into the christian band.

Now five long years have passed away,
Since first I bowed my knees to pray,
And now I live a sober life,
With a good home and a loving wife.

A Historic Point.

We spent a couple of days last week, at Marietta, Ga. During the late war, the country around this beautiful little city was bathed in blood. The numerous old breast works in the vicinity show how stubbornly every point was contested.

Near the city the twin crest of Kennesaw Mountain towers far above the surrounding country. It was on this mountain that one of the hardest fought battles of the war took place. It was the key to the Confederate line, which extended southwest, about nine miles to Lost Mountain.

The National Cemetery at this place bears witness to the terrible fighting, for 10,000 Federal soldiers lie buried within its grounds. Many of the business houses in the town have their windows filled with relics which have been purchased from the farmers for a few cents a pound. It was our good fortune, while in this town, to visit Mr. Wm. Annondale, a fine old Scotch gentleman, residing near the base of the mountain. He has lived there since the close of the war, and possesses an accurate knowledge of the surrounding country. He pointed out to us where the shot and shell from the federal batteries has mown down the forest, and related to us many facts pertaining to this bloody battle.

The farmers round and about the mountain frequently plow out shell and cannon ball; and Mr. Annondale, having a couple on hand which he had found in his field generously brought them into town and turned them over to our tender care. From this time on, until we reached home, we were certainly heavily laden for the weight of the battle hung heavier upon us than ever before.—Chattanooga Southern Immigrant.

Perhaps the oddest thing in prison methods in the always novel west is the treatment of inmates of the county jail at Cathlamet, Ore. Three times a day every day in the week, they are taken out of jail and escorted to the dining room of one of the several restaurants and hotels in town, and there they take their meals in more comfort and ease than many of people who have to work for the privilege of eating. The keepers of the restaurants and hotels refused to make bids for furnishing food to the jail, and this picnic for the prisoners is the result.

Death of the Crowing Hen.

At a very recent date, in many parts of our country, it was a sign of bad luck for a hen to crow, says Lippincott's Magazine. Just why, it is difficult to trace; perhaps because it was considered the assumption by a female of masculine prerogatives. Whenever a hen dared attempt it, she was run down by the united efforts of all the children on the premises, and her head paid the forfeit.

A recent traveler in Kentucky writes that while visiting at the country home of a friend a hen was heard to crow. Instantly the cry was raised, "Catch her! Kill her!" He interposed in the hen's behalf by reminding his hosts that this was an "age of rights," and she was, therefore, not guilty of any wrong-doing. They scoffed at his heterodoxy, and the clamor that followed prepared him for the return of the pursuers bearing the head of the foolish fowl.

Matrimony as a Last Resort.

"I am about to be married," writes a girl to this office, "and instead of reciving congratulations I am aware that I need a defense, and I take this means of making it. I am 27 years old—old enough to know better and to do better, but I have no choice. The man is a widower with one child. He liked his first wife better than he does me; I liked a man years ago better than I like him, so we are quits on that. He wants a housekeeper; I want a home. I was brought up to sing a little and play a little but have no trade. My parents will be glad to see me settled. I would be happier earning $5 or $6 a week and taking care of myself, but I was not taught how. There are thousands of women in my position. Every man who brings up his daughters without starting them with the means of earning a livelihood is responsible for just such a mistake as I shall take next month."—Atchison Globe.

Odds and Ends.

A Reading, Pa., woman bled to death after having sixteen teeth extracted.

Three townships in Muskegon county, Mich., have more than a thousand acres set to peppermint.

Holbein's picture of the Barber Surgeon's guild, in London, is offered for sale for $75,000.

A Connecticut church thus advertises: "A cool church physically, a warm church spiritually. Good seats for timely arrivals and glorious times to all.

A Paducah, Ky., man has a tree in his residence yard which bears fruit that is a cross between a peach and a plum. The fruit is luscious and attractive, and is larger than an ordinary peach.

The Presbyterian minister at Tarkio, Mo., raised 151 quarts of strawberries this spring from a patch of ground 20 feet square.

An insane woman was brought to Seattle, Wash., from a ranch in the interior of the State recently and sent to an asylum. The supposed cause of her insanity suggested by the doctors was "the solitude of ranch life."

The Krupp steel 130 ton gun has a range of 15 miles and can fire two shots a minute. The shot weighs 2,600 pounds, and 701 pounds of powder are required for a charge.

When pins were first invented they were considered so great a luxury as not to be fit for common use, and the maker was not allowed to sell them in an open shop except on two days of the year at the beginning of January.

The seedling orange crop of the great Baldwin and Chapman ranches in San Gabriel valley, California, sold this year for $100 to $200.

Georgia beat her record with the peach crop this season, and there is every indication that the pear crop, too will be by far the largest ever raised.

Dahlonega Signal.

DAHLONEGA, Aug. 30, 1895.

Entered at the Dahlonega, Ga. P. O., as second class matter.

Only 19 days until the Atlanta exposition opens.

The cholera has killed 16,000 persons in Japan up to date.

Mr. Watson claims that they have already commenced registering illegal votes in Augusta.

J. B. Osburn, of Atlanta, is now making a tour in Mississippi in the interest of the populist party.

Many of the democrats say that Black will be defeated in the tenth again this time and they will be glad of it.

J. A. Mason, ex-treasurer of DeKalb county has been indicted for embezzlement. His shortage is estimated at $25,000. He was treasurer for six years.

Mrs. Helen C. Stewart took the oath of office and gave a bond of $15,000, as Sheriff of Greene county, Mo., recently, at Springfield. She has reappointed the old deputies.

Secretary Smith instead of going about from place to place making speeches should be at his place of business in Washington. If there is no need of him there his services should be dispensed with and stop his salary.

Only fourteen counties thus far have secured space for county exhibits at the Atlanta exposition. They are Randolph, Clarke, Merriwether, Bartow, Worth, Green, Polk, Sumpter, Gwinnett, Cobb, Dodge, Glynn, Haraldson and Floyd.

North Georgia Citizen: Two women took out distillers' license from Collector Trammell last week. They will make brandy, and it is proposed that a sample of peach and apple be gotten of them and put in the woman's department in the exposition.

On Wednesday, Secretary Hoke Smith drew upon the Secretary of the Treasury for $10,950,000 for the payment of pensions. This money will be distributed by the various agencies. The people can see from this where a great deal of their money goes.

The Grand Lodge of Odd Fellows made a run on the Savings Bank at Griffin Thursday, where Treasurer Tyson was paying off expense bills. There were about 175 members in attendance at an average expense of $12, a total of $2,100, and about a third of this was left in Griffin.

Durant, who murdered two girls in a church at San Francisco, is on trial. The evidence of his guilt, while circumstacial, seems almost conclusive of his guilt. While it is a dangerous thing to convict a man on purely circumstantial testimony, yet the facts may so link to gether that there can be no reasonable hypothesis.

Another attack has been made on the missionaries in China. The first attack was at Kucheng and the missionaries assaulted and killed were English with but one exception. The second was at FuChan, and the object of the Chinese hatred was the American mission chapel and school house. The missionary escaped harm, but four native scholars, who were attending school, were wounded.

W. L. Goodwin of Cartersville shows the Courant a peach that has been pronounced by every one so far the largest they ever saw. While it will not fill a hat crown it will leave but little vacant space around it after being placed in one. It measured 33 inches in circumference and weighs just thirteen ounces. This monster peach grew on a small tree in Mr. Goodwin's yard along with four or five others almost as large. He does not know the variety but it is a large yellow peach with crimson touchings.

Miss Carrie Forehand, a nineteen-year-old young lady of Dooly county, has filed a breach of promise suit for $10,000 against Mr. J. P. Parker, aged forty-five years also a resident of Dooly. The marriage was to come off last Sunday at the residence of the bride's father. But the bridegroom came not, although he had procured a license. Instead at 12 o'clock noon the time set for the marriage with Miss Forehand, Mr. Parker was wedded to Miss Alice Wilkes fifteen years old, a first cousin of his first wife, who was stopping at his house preparing to get it ready for his new bride. Parker is a farmer, and owns property valued at $16,000.

DAHLONEGA RAILROAD.

Charter Obtained, Officers Elected, Work to Begin as Soon as Subscriptions and Rights of Way are Obtained.

A charter was granted the Dahlonega Railroad Company last Saturday by Secretary Candler.

On Monday the company was organized in Dahlonega, the charter accepted and the full stock of $300,000 subscribed.

Directors chosen were: Geo. W. Scott, C. M. Candler, Geo. B. Scott, N. P. Pratt, W. P. Price, H. P. Farrow and J. F. Moore. Officers: Geo. W. Scott, President, W. P. Price, Vice-President; N. P. Pratt, Treasurer; J. F. Moore, Secretary.

Directors are authorized to contract with Dahlonega Construction Company, and will do this as soon as subscriptions and rights of way are secured. The Construction Company organized at Savannah some time ago. Geo. J. Baldwin is its President.

Permanent location will be decided in a week or ten days. Maj. Bolton is now hard at work at it.

Delegates from Bolton were present and presented a strong subscription to secure the road to that place.

Mr. Baldwin left Wednesday going to White county and over the Lula route to Athens and thence to Gainesville. The matter of route will be determined upon on his return and will depend entirely upon which route offers strongest inducements.

It was stated at the meeting that the cost of grading between the copper mine and Dahlonega would be more than was anticipated. It is necessary for our people to come up with their subscription. $25,000 at least ought to be rrised. The committee will shortly call meetings throughout the county for the purpose of obtaining definite subscriptions. Let every one meet this committee and subscribe every dollar possible to this great enterprise that has been so much needed so as to enable all to have a ready market for every thing that can be produced in this section. It will be a great benefit in decreasing the high taxes that are now being paid by our citizens and in many other ways be a blessing to every one residing in the county.

The well known character of the capitalists at the head of the enterprise is a guarantee of good faith, &c., and the fact that some of our representative citizens have places in the directory insures a protection of the interests of this county.

RAILROAD CHARTERED.

Its Building Means Much for the Development of Georgia.

Secretary of State Candler this morning issued a charter that means more to the industrial development of Georgia than anything that has occurred in a long time.

The charter was granted to the Dahlonega Railroad Company to build and operate the Dahlonega railroad which will run from Lula or Gainesville to Dahlonega. The capital stock will be $300,000 and the purpose of the incorporators is to develop the inexhaustible fields of copper pyrites which have been discovered there. The road means hundreds of thousands of dollars to Georgia, as the whole supply of these pyrites has been heretofore brought from Spain and other foreign countries.

The ore is used in the manufacture of sulphuric acid which is the sine qua non of the fertilizer industry.

The company is composed of the following well known gentleman whose names are a guarantee that the enterprise is to be a great success: George W. Scott, C. M. Candler and N. P. Pratt, of Atlanta; W. A. Charters, W. P. Price, M. C. Boyd and F. W. Hall, of Dahlonega A. G. Jennings, of New York, and George J. Baldwin, of Savannah.

The quality of ore that abounds along the new line is the finest yet known, Colonel George W. Scott having thoroughly tested it.—Atlanta Journal.

LOST.

On Friday 23rd instant, on the road between Dahlonega and Gainesville, by way of Neister's Ford Twenty Five Dollars, consisting of one Twenty Dollar bill and one Five Dollar bill. A reward will be paid for its return.

W. A. Charters.

Hood's cure liver ills, constipation, billiousness, jaundice, sick headache, indigestion.

WARRANTS SWORN OUT

For Jake Postell, John Walker, "Bub" Walker and Jim Walker, Charged With Assault With Intent to Murder.

We stated in our last issue that Charlie McDonald, Rachel Walker and Mary Postell had been shot while returning from church one night last week in the upper portion of this county but were unable to give any particulars except that one of the girls was shot in one of her legs, the other in the face and the driver, McDonald, in the head and back, wounds however not being of a serious nature.

Soon afterwards Reubin McDonald, the father of the driver, swore out warrants for Jake Postell, John Walker, "Bub" Walker and Jim Walker, brothers of the girls, and put the papers in the sheriff's hands, charging them with assault with intent to murder, but up to this time but one—Jake Postell—has been arrested, as the boys seem to be on the alert and not making themselves conspicous in the neighborhood in which they live.

The cause of the shooting, as we learn, is as follows: The driver fastened down the back curtains and was pretending to be driving the two girls to their homes some two miles distant, who were escorted by two young men whose names we do not know, residing in the lower part of the state, that had been spending a few weeks in that section on a pleasure trip.

When the fork of the road was reached, the driver instead of taking the one that led to the girls homes kept the main road and went more than a mile before he turned his hack round. The boys missing their sisters at home and not pleased with the movement, doubtless prepared themselves for the occasion and went in search of the party, and when the back was seen approaching the gate which should have been entered long before by the girls, it is said that the boys poured "shot" shot into the vehicle with the above results, in all probability intended for the driver and the other two young men instead of the girls.

What Athens Thinks About the Dahlonega R. R.

A dispatch from Athens to the Atlanta Journal bearing date of 26th inst, has this to say about the Dahlonega railroad:

The people of Athens are rejoicing to know that a charter has been granted for the Dahlonega and Lula railroad. Some who were not on the inside believed that Gainesville would get the road, but it is understood that knowing ones were entirely satisfied that the road would be built to Lula connecting with the Southern and making a direct line from Athens to Dahlonega via the Northeastern. There is a well-founded rumor to that if the effect Athens gentleman are successful in leasing the Northeastern from the state that the rolling stock will be furnished by them for the new road and that the two roads will be operated at once.

There is no question that the building of this new road will be of great benefit to Athens—bringing to this point a very large amount of trade which now goes to the plucky little city of Gainesville.

To-day, in business circles there has been little else talked about and our people are jubilant knowing the great benefit it will be to us.

The Pension Roll.

Col. Robertson, of Habersham, in a recent speech gave the following interesting figures as to the pension roll of the United States:

Widows		215,162
War of 1812(survivors)		45
Indian wars	"	3,104
Mexican wars	"	13,461
The civil war	"	737,772
Total		969,544

Is the government paying off these pensions in "sound money"?—Gwinnett Herald.

Prevention better than cure. Tutt's Liver Pills will not only cure, but if taken in time will prevent **Sick Headache,** dyspepsia, biliousness, malaria, constipation, jaundice, torpid liver and kindred diseases.

TUTT'S Liver PILLS
ABSOLUTELY CURE.

Personal Mention.

Bro. McNelley left on the hack Tuesday on a business trip to Atlanta.

Bro. Ellington, of that bright and newsy populist paper—Ellijay Sentinel—visited Dahlonega this week.

Dr. Weld, after an absence of several days in Atlanta, has returned, and has been busy this week getting things shaped up about the mines.

Mrs. Lizzie Bird, of Murrayville, will move to Dahlonega next Monday and occupy the Stanton building, for the purpose of entering her son and two daughters in college.

E. E. Buffington, of Gilmer county, paid Dahlonega a pleasant visit last week. Mr. Buffington used to reside in Lumpkin county and we would be glad for him to return and settle with us again.

J. E. Meaders, wife and child, after spending most of the summer here, took their departure for their homes in Swainesboro last Saturday. We trust that they reached their destination in safety.

Do you want to see a person that is chuck full of joy and happiness? If so step round and take a peep at J. W. Kytle. An eight pound boy put in its appearance Tuesday is sufficient explanation for us to give.

Mr. George J. Baldwin, of Savannah, arrived in Dahlonega last Saturday afternoon for the purpose of attending the incorporators meeting of the Dahlonega Railroad, accompanied by his attorney, Col. Wm. Garrard, from the same city.

R. C. Wood has come up from Florida to spend a short time in Dahlonega. Mr. Wood has been spending a few weeks in Dahlonega every summer for the last two or three years, and his many acquantances here are always glad to meet him.

Mrs. S. J. Puckett, of Terre Coupee, Ind., recently elected to take charge of the music and art depatment of the N. G. A. College, arrived in the city Tuesday and has stopped at the Hall House temporarily. She is ready to take classes at once.

Turner Quillian, of Lund, and Robert Quillian, of Belen, both came over to Dahlonega last Monday to see what the prospects were in getting the railroad built from Lula or Belton. Mr. Baldwin was here but didn't intimate which way the road would be built to Dahlonega.

A party of gentleman from Acworth passed through Dahlonega Monday, returning home from a tour in the mountains. They were M. Phillips, merchant, Pen Litchell, telegraph operator, Wm. Mitchell, merchant, accompanied by A. M. Knettles, of Mississippi. They all seemed delighted with their trip.

Frank E. Block, of Atlanta, stopped about an hour in our town last Friday while en route for Porter Springs. Mr. Block has sold thousands of dollars worth of goods to our merchants although but few of them know him only by reputation, while he was sitting at the Drug Store some of the business men were wondering "who that stranger" was.

"Silver" Books Will Not Answer.

We have seen a circular from the International Publishing Co., Philadelphia, Pa., soliciting agents to sell a book titled "Silver and Gold or Both Sides of the Shield." Views on the Currency question by Silver men, Carlisle and others with portraits of leading statesmen, &c.

A book and pictures on this subject is not so much what we need, as the coinage of gold, all the silver dug from the soil of the United States and a sufficient amount of U. S. paper money to conduct the legitimate business of the country, all of which to be a legal tender for the dues to or from the government.

HOW THIS.

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.

F. J. CHENEY & Co., Props.
Toledo, O.

We the undersigned, have known F. J. Cheney for the last 15 years, and believe him perfectly honorable in all business transactions and financially able to carry out any obligation made by their firm.

West & Truax, Wholesale Druggits, Toledo, O. Walding, Kinnan & Marvin, Wholesale Druggists, Toledo, Ohio.

Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Price, 75c. per bottle. Sold by all Druggists. Testimonials free.

July 2 4t

Georgia Convict System.

Harvey Merritt, recently pardoned out of the penitentiary, has entered suit for heavy damages against the penitentiary company. Merritt recites a horrible story of inhuman and cruel treatment as the basis of his action. He was in for 12 years, and alleges that he was pardoned after serving 9 years because he no longer was useful to the lessees.

While working for the Chattahoochee Brick Company and in the coal mines of the lessee in Walker County, he alleges that he was at frequent times beaten with inhuman savageness. Sixty to 70 licks on the naked back, he says, with a three-pound strap was no unusual punishment. At times he was given 175 lashes, the blood spurting forth at each blow. After this particular beating he attempted to escape, was recaptured and he recites the horrible details of the beating he received. Six men held him while Woodruff, the whipping boss, plied the strap, which was split by the force of the blows. One of his eyes was put out by the terrible strap.—People's Party Paper.

A True Snake Story.

Messrs. T. B. Higdon and C. C. Foster, returning from Union county, Ga., a few days ago across Chunky Gal mountain, found a real curiosity in the road. It was a rattlesnake about three feet long that had attempted to swallow a wood-pecker, of the kind popularly known as the yellow hammer head foremost. The snake had swallowed the head, and the bird had cut the snake's throat with its sharp bill so that its head protruded from the snake's throat. Both were dead, but the signs in the road indicated that there had been a long and powerful struggle.—Franklin (N. C.) Press.

That Tired Feeling

Means danger. It is a serious condition and will lead to disastrous results if it is not overcome at once. It is a sure sign that the blood is impoverished and impure. The best remedy is

HOOD'S Sarsaparilla

Which makes rich, healthy blood, and thus gives strength and elasticity to the muscles, vigor to the brain and health and vitality to every part of the body. Hood's Sarsaparilla positively

Makes the Weak Strong

"I was troubled for a long time with a tired feeling and loss of appetite. After taking three bottles of Hood's Sarsaparilla with Hood's Vegetable Pills, my strength is coming back and my appetite is restored for which I am grateful." Mrs. Backhus, 46 Hasell St., Charleston, S. C.

Hood's and Only Hood's

Hood's Pills easy to buy, easy to take, easy in effect. 25c.

NIMBLEWILL NURSERY, Lumpkin County, Ga.

MY Nursery is situated 11 miles west of Dahlonega. I have made a careful selection to get best varieties of fruit, something that will bear full and regular and keep well. Every variety of fruit I am growing has all been tried and found suitable to this climate. All persons wishing to purchase will please send in their orders. I will make it for your interest and will give each order prompt attention.

C. N. PITTS, Proprietor,
Randa, Lumpkin Co., Ga.

July 5, 1895 1y.

Sheriff's Sales.

Georgia, Lumpkin County:

Will be sold before the court house door, in Dahlonega, in said county, on the first Tuesday in September, 1895, within the legal hours of sale, to the highest bidder for cash, the following property to-wit:

Lots of land Nos. 935 and 943, lying in the 18th district and 1st section of Lumpkin county. Levied on as the property of W. D. Ivey to satisfy a mortgage fi. fa. issued from the Superior Court of Lumpkin county in favor of Francis A. Fitts vs. W. D. Ivey.

D. S. Prewitt, Sheriff.

Aug. 7, 1895.

Chestatee Pyrites Company vs. Gertha Post. | Partition of Realty, in the Superior Court Lumpkin County, Georgia. October Term, 1895.

To Gertha Post:—

You are hereby notified that Chestatee Pyrites Company has filed against you in said court a suit for the partition of lot of land number 101 in the first district of originally Habersham now said county of Lumpkin, except the gold interest thereof. The petition prayed for is by sale of the land and the application will be heard at the next term of said court beginning on the third Monday in October 1895, at which term of said court you are notified to be and appear as in default thereof the court will proceed as to justice shall appertain.

Witness the Honorable John J. Kinsey, Judge of said court. This 22nd July, 1895. John H. Moore, Clerk.

July 26 2 a m Sep 6.

Dowdell Bros. vs. S. A. Dearmon.) Foreclosure of mortgage in Superior Court, Lumpkin County, Georgia.

To S. D. Dearmon:—

You are hereby commanded to be and appear at the October Term 1895 of the Superior Court of Lumpkin county, Georgia, to be held on the third Monday in October, 1895, then and there to answer the complaint of the plaintiff in an action of foreclosure of a mortgage on realty in said County pending. As in default thereof the Court will proceed as to Justice shall appertain. Witness the Honorable J. J. Kinsey, Judge of Lumpkin Superior Court of said county. This July 26th, 1895. John H. Moore, C. S. C.

Aug. 2, twice mo 2 m.

John Lance) Libel for d vorce Oct. vs. Term 1895, of Lumpkin Nancy Lance.) Superior Court.

To Nancy Lance defendant in above stated case:—

Is hereby commanded and required to be and appear at the next Superior Court to be held in and for said county on the 3rd Monday in October, 1895, to answer the above action of John Lance for divorce, or in default thereof the Court will proceed as to justice shall appertain. Witness the Honorable J. J. Kinsey, Judge of said Court. This July 26th, 1895. John H. Moore, C. S. C.

Dahlonega Signal.

DAHLONEGA, Aug. 30, 1895.

The fall session of the N. G. A. College opens next Monday.

Another load of visitors went up to Porter Springs last Friday.

Marion Chester has got a lease on the Mary Henry mine for six months.

The first students for the fall session of our college, arrived last Tuesday.

A little child of James Porter died in Crumby's district one day last week.

The state tax has been assessed. It is 4.56 mills. The decrease is $18,000,000.

Wm. Butler was wedded to Miss Lizzie, daughter of G. M. D. Lance Thursday of last week.

Wash Gooch, of Union county, was bound over Wednesday for violating the internal revenue law.

W. H. Crain, of this county, and Miss Florence Crawford, of Dawson, were married by Rev. W. T. Dowdy last Sunday.

We are informed that W. P. Price, Jr., has received the position of gate keeper at the Atlanta exposition.

It was not Cinda but Rachael Walker that was shot in the face one night last week while returning from church.

It is said that a warrant has been issued against Jack Townsend for drawing a pistol on a negro at Porter Springs last week.

Robt. Satterfield, charged with wife whipping, waived examination and made bond last week for his appearance at Lumpkin Superior Court.

Henry Roberts, who has been engaged for some time in prospecting for gold on Crown Mountain, struck it rich last week, and Gen. Murray, the owner, will likely take steps to work it an early day.

A Western gentleman, after receiving a sample copy of the SIGNAL, writes that he is surprised to see that there only two lawyers in as old a town as Dahlonega. There are about half a dozen living here but only two have made it known through the columns of the paper that they intend to practice.

Col. Boyd missed about a $250 fee a few days ago by being a member of the legislature. A Mr. Holder, of Blue Ridge, came over last week to employ the Colonel to assist those interested in moving the court house from Morganton to Blue Ridge in a legal manner.

A leading citizens of Dahlonega informs us that he knew of a man who had given away his wagon and steers to his son so as to enable him to draw a pension. Now if he was to fail to get a pension wouldn't he feel bad? Such conduct as this is liable to cause some who are really entitled to a pension to have much trouble in securing it.

W. T. Bryson, who resides on the Chestatee river, writes that if it had not been for the late freshet he would have made two hundred bushels of corn, but now will do well if he makes thirty. He also states that Frank Bryson and Geo. Adams informed him that a mill rock and an iron wheel, weighing about three tons, were washed down the river.

Jackson, son of Squire Jones, of Union county, died last Saturday. He was just recovering from typhoid fever and ate a piece of pie which caused him to immediately grow worse and he died in a day or two after he had eaten the pie. All of Mr. Jones' family, five or six in number, are down with the same fever that the boy died with.

A WOMAN WHO WILL WORK

WANTED in every county to introduce the Celebrated "Hygeia" Waists for all ages. This waist supercedes the corset, and has received the unanimous approval of the leading physicians of America. $3.00 outfit free. An energetic woman can make from $15 to $30 weekly. Send for circulars and terms. HYGEIA M'F'G Co., 378 Canal St., New York.

July 5, 3m

Royal Baking Powder

ABSOLUTELY PURE

See the stock of toilet soaps, brushes, &c., just received at drug store. Jt

It is expected that the new bridge across Yahoola creek will be completed this week.

Charles D. Griggs, residing in Florida, subscribed $500 to the Dahlonega Railroad.

Prof. Dunn has changed his location this week. He now occupies the Griggs house.

A little boy of Harve Stephens, col., died from the effects of whooping cough last Monday.

We are informed that Tom Beck fell off of a trestle last Monday near Auraria, and was dangerously injured.

John W. Weaver has been engaged since the freshet in cleaning out the ditch which conveys water to the Singleton mine.

The household of Sanford Littlefield at Porter Springs has been made happy recently by the appearance of a little bright-eyed boy.

Wm. Riley, who has recently returned from an association held in Forsyth county, says that corn is selling at 30 cents per bushel in Cumming.

The march of improvement goes steadily on in Dahlonega. Rickets & Bro. are now engaged in putting the finishing touch on the interior of Dr. Jones' residence.

A little boy of Mrs. Rhoda Pitman died Sunday last of whooping cough. Its remains were interred in Mount Hope cemetery Monday afternoon at 5 o'clock.

Dr. Weld has had a physician attending on one of his dogs this week which had a six inch slit cut in its breast while coming in contact with a barbed wire.

The president of the N. G. A. College has been notified that R. L. Bullard, 1st Lieutenant 10th Infantry, has been appointed to take charge of the military department of this institution.

L. Q. Meaders says that the street leading by his house has got in such a condition that it is dangerous to travel and if the council does not work it soon he will get up a petion asking for it to be closed.

Some claim that the dredge boat damaged the iron bridge across the Chestatee river some five or six hundred dollars. The superintendent of the boat has placed the bridge back on the pillars and two-horse wagons have been crossing it for the past few days but it is not considered safe with even this small amount of weight on it. Nothing further will be done to it until the owner of the boat arrives.

Jake Postell, of this county, was arrested by sheriff Pruitt last Sunday on two warrants sent over by the sheriff of Union county. He had visited a Justices Court with a pistol in his pocket, which was brought to the notice of the grand jury is the cause of the defendant having to take lodging with the jailer, occupying a room up stairs, having but one window with great big pieces of iron fastoned across it so as to prevent haunts from getting to the boy.

Since the advent of the little stranger at ex-sheriff Brookshier's, John can be heard all through the night singing, "By oh baby by" in a clear, loud and distinct manner. It does not only have the desired effect with the baby but causes all of the songsters neighbors to drop off to sleep when the music begins. When anything causes him to be late in coming home from the store none of them don't even attempt to go to sleep until John gets home and commences.

Bucklin's Arnica Salve.

The best Salve in the world for cuts, bruises, sores, ulcers, salt, Rheum, Fever Sores, Tetter, chapped Hands, Chilblains, corns, and all skin Eruptions, and positively cures Piles or no pay required. A complete line of lamp goods cheap for boarding houses at City Drug Store. 3t

Mrs. J. P. Parker is selling out with the expectation of joining her husband who is in the West, in a few days.

While butter is dull in Gainesville at ten and twelve cents, scarcely a pound can be had in Dahlonega at any price.

If you want a desirable place to board or batch call on W. B. Woodward, south-east side of public square. Good, large rooms well furnished.

Camp meeting is in session at Loudsville this week and we suppose a sufficient police force has been appointed to endeavor to protect those that have gone there to serve God.

Is there any of the missionary workers in Dahlonega who desire to visit China now to carry those heathens that are killing missionaries, some money so as to keep them plenty to eat while they are engaged in this work?

Last Saturday W. H. Cook received a dispatch from Cornelia, stating that his daughter, Mrs. Belle Burrell, was in a dangerous condition and not expected to live, requesting him to come at once. By the same mail came another dispatch sent later that the lady had got better and that it was not necessary for him to come. On Monday following Mr. Cook received a letter that his daughter was not expected to live and for him to come at once.

Will Stephens, col., was up before Mayor Harbison Saturday night charged with imbibing too freely in mountain dew some nights ago. Upon investigation it was found that Will had not taken on but a little larger quantity than is used by many of the more intelligent white people, and he was let go. Nothing could be done about the few small curse words for they were not proven to be as long and loud as is some times heard on the streets from the lips of some persons names that are on the church books.

Some of those who went from Dahlonega to Lumpkin camp meeting last Sunday report a large attendance, much drinking and one arrest, which will help much towards keeping up the officers of that county. Camp meetings have about seen their day. When they were first organized churches were located many miles apart and ministers scarce and those that attended went for the good of the meeting and didn't have to be protected by a strong police force like they do now. Most of those that visit camp meetings at the present day either go to see or be seen, get drunk and cut up.

Three more citizens of Lumpkin registered last week to engage in the manufacture of brandy, making four that are now in operation in the county. Those that registered last week are Milford Hall, Ed and John Corn. The two latter certainly have excellent bonds according to the record, being signed by John P. Corn and his son John A. Corn. John A. Corn made an affidavit, so the revenue official informs us, that he was worth $5,000, $3,000 of this being in real estate—340 acres. John A. Corn made an affidavit that he was worth $1,000, $750 of this being in real estate.

BAKING POWDER
MOST PERFECT MADE.
A pure Grape Cream of Tartar Powder. Free from Ammonia, Alum or any other adulterant.
40 YEARS THE STANDARD.

Rev. W. M. D. Bond has been quite sick for more than a week.

Mrs. Brittain taken ill last week and is suffering much from rheumatism.

Henry Duncan and Miss Winnie, daughter of Ike Woody, were married on the 23rd.

Hon. W. H. Venable, President of the Senate, has appointed Miss Ada Gann, of Cobb county, a student of the N. G. A. College.

Mr. James Kirkham has taken the contract to move a couple of houses—one for E. E. Crisson and the other for B. F. Anderson.

We understand that a row occurred last Saturday at the pic nic at Keystone between the Loggins' and Henry Cannon but no one was hurt.

Recent damages have been made good at the Findley and Hand and both mills are running on time once more. The Horner mill is also in running order.

We would like for more of Pickens county's citizens to visit Dahlonega, for all those that have already been here subscribed for the SIGNAL.

The railroad surveyors are still located in Dahlonega. They have been engaged this week in going over the upper route from this place to the copper mines, recently surveyed by Mr. Lawrence.

Mr. G. D. Bruce, who went to Oklahoma Territory from Lumpkin county and settled about three years ago, writes us this week as follows: "This country is not what we expected. It is subject to drouth, grasshoppers chinix bugs, and many other pests that are fatal to the growing crops. A man lives more real life in that country in one year than we do here in five."

Wife whippings have been a very common occurrence in this county for the past few days. Some of the guilty ones have been put in the strong arms of the law while others are enjoying their freedom. The last whipping, so we are informed, took place a few days ago in Hightower district, Jasper Pierce being the participant. We are told that with the use of his fist and umbrella he forced his wife to leave her home and take refuge under some other roof.

Last Sunday while Aaron Stephens, col., and his wife were fighting the woman received a small wound on one of her fingers made by Aaron's splendid set of food crushers. Had it been a few months ago when they were making arrangements to clasp hands and march on the journey of life together she would have stood and let Aaron gnawed her hand entirely off and not even flinched, but since they have become partners she has discovered that her mate is not quite as sweet as sugar, and in order to get revenge reported Aaron to the marshal.

Juan Wellborn, of Union county, for whom several warrants are against in that county for various offences, was in Dahlonega last Wednesday night as a witness in U. S. Com. Baker's court against a Mr. Gooch, charged with illicit distilling, but before Wellborn came however, he went to see Attorney James in Atlanta, who informed him that the state officers could not arrest him while on his way to or from the Commissioners Court. Notwithstanding Wellborn has worked on the farm in that county this summer, the sheriff of Union has offered a reward of $50 for his arrest and sent City Marshal Anderson the warrants against him.

Some time ago an old gentleman of this county, who loves liquor better than he does coffee, joined the Baptist church. He had seen many summers and had been a pretty rough customer. When the time came for him to relate his experience the preacher said, "Now brother, go on and tell the whole story!" "It's no story. It's the Godimighty's truth," said the new member, who went on and told enough which, if it had been printed, would cover as much paper as the moral laws. Since that time the old fellow has back slidden and don't seem to want to be as correct in his statements as he did when he joined the church, for not long since he made a return of 240 acres of land to a revenue officer and valued it at $3,000, which he says to the tax receiver is only worth $340.

A QUESTION.

Do We Advertise Too Much?

GEO. P. ESTES

Thinks not. Josh Billings

Says:

"I luv a ruster for two things. One iz the crow that iz in him and the other iz the spurs that air on him to back up the crow with."

Now if any one is ever tempted to think that we crow unduly just let him come and see the stock we carry and the prices we make to "back up the crow with."

It is our nerve in carrying the stock and cutting the heart out of prices that makes the business existance burdensome for those who attempt to follow us. Do you need any

CLOTHING, SHOES, HATS,

DRESS GOODS

—OR—

WEARING APPAREL for the

Camp Meeting coming on, of any kind? Do you need any

Carpets, Rugs, Window Shades, Curtains, or House Furnishings of any kind?

Always call on us where the Styles are up-to-date and the Prices right.

All Summer Goods are marked down to clearing out prices that will sweep them out before getting in our Big Fall Stock.

These prices of ours will likely make beads of cold perspiration stand out on the foreheads of our competitors like rain drops on a Century Plant, but as we have more customers than competitors a much larger number of people are benefitted by our extremely low cut prices.

Remember we carry a heavy stock of Groceries, the best in quality and lowest in prices. Call on us when visiting Gainesville.

GEO. P. ESTES.

The machinery at the Garnett mine will likely be ready for motion by Monday.

The bridge across Cavender's creek near J. T. Grindle's has been rebuilt and the road thoroughly worked out.

We are informed that it is the intention of the Chestatee company to put up a cotton factory provided the railroad runs through its property as recently surveyed.

Capt. G. J. Baldwin visited White county this week to solicit subscriptions for a branch route to be run from the Dahlonega railroad to some point in that county. He says if her citizens give him sufficient encouragement he will certainly build one.

The guests are being conveyed to and from Porter Springs now through White county from Gainesville, which is only three miles farther than the old route, which cannot be used now until a new bridge is completed across the Chestatee river where Bearden's bridge was washed away.

Some years ago there was a second hand bass fiddle to sell in Dahlonega very cheap. One of the members of the council at that time suggested to the board that they ought to buy it and purchase a full set of instruments for the benefit of the town, but the rest of the body couldn't see it that way and the fiddle was purchased by a private party. We have almost come to the conclusion that it would have been a good idea had this fiddle been purchased by the council, and then made it the duty of the marshal to "saw" on it. It certainly would have been entertaining to our citizens and kept the officials time employed and caused him to earn his money.

THE IDEAL PANACEA.

James L. Francis, Alderman, Chicago, says: "I regard Dr. King's New Discovery as an Ideal Panacea for coughs, colds and lung complaints, having used it in my family for the last five years, to the exclusion of physicians's prescriptions or other preparations."

Rev. John Burgus, Keokuk, Iowa, writes: "I have been a Minister of the Methodist Episcopal Church for 50 years or more, and have never found anything so beneficial or that gave me such speedy relief, as Dr. King's New Discovery." Try this Ideal Cough Remedy now. Trial Bottles free at E. C. Cartledge Druggist.

Rev. W. T. Dowdy, pastor of Oak Grove church, requests us to state that he did not authorize any one to order John Campbell off from that church recently, as was stated in our last week's issue.

The heavy rain up the river last Tuesday caused the Chestatee Company's dam to wash away. A good many who had come to town that day had to camp on this side of the river as the water rose five feet.

Wm. Dowdy, the seventeen-year-old son of Richard Dowdy, was partially covered by a cave while cleaning out an old cut at the Woodward & Marlow mine last Tuesday. The injuries were quite painful but fortunately no bones were broken and the boy will be all right again in a few days.

Ten persons who had united themselves with Salem church, were baptized last Sunday, eighteen, who have recently joined Bethlehem church, will be baptized next Sunday at the ford of the creek beyond A. L. Wimpys. Twenty-eight persons have also united themselves with Yahoola church and the baptizing will take place the third Sunday in next month.

Owing to the destruction of bridges and damages to all the roads leading to Dahlonega caused by the late unprecedent freshet, by authority of the executive committee of the Veterans Association of Lumpkin County, the reunion of the 52nd Georgia Regiment, C. S. A., which was to have occurred at Dahlonega on the 30th of August has been postponed until Thursday, October 10th.

Tired women need to have their blood purified and enriched by Hood's Sarsaparilla. It will give them strength and health.

IT MAY DO AS MUCH FOR YOU.

Mr. Fred Miller, of Irving, Ill., writes that he had a severe kidney trouble for many years, with pains in his back and also that his bladder was affected. He tried many so called Kidney cures but without any good result. About a year ago he began use of Electric Bitters and found relief at once. Electric Bitters is especially adapted to cure of all Kidney and Liver troubles and often gives almost instant relief. One trial will prove our statement. Price only 50c for large bottle. At E. C. Cartledge Druggist.

Last Saturday Bob Blackwell, col., of Hall county, brought in a load of melons. He drove a couple of mules, one of which had on its head a halter which was recognized by L. Q. Meaders as being one of his. The darkey claimed that he had borrowed it from a fellow and wouldn't give it up until Mr. Meaders started to consult a Justice of the Peace. He handed it over and drove his bareheaded mule out of town and we haven't seen him since.

Last Monday we struck up with Col. Farrow, who had come down from Porter Springs to attend the meeting of the corporators of the Dahlonega Railroad. He accepted an invitation from us to visit our place of business. We piloted him around the holes, through the weeds and over the rocks and got him to the office without his getting either one of his legs broken. Our friend lives at the foot of Cedar Mountain and often escorts his guests on its lofty peaks, else he could not have stood the trip over the so called street to the SIGNAL office.

Two Run News.

Protracted meetings are now over, and the many young lovers will have to cease their moonshine walks in search of wild flowers.

The public roads are being looked after by their respective overseers.

The public schools of this district are flourishing.

Rev. J. S. Chester recently caught a large coon, but was not startled like Messrs. Lance and Scott when they discovered a small snake and implored the blessing of the church members upon the snakes head. But the noted Divine just sat down and devoured it as quiet as did Buffalo Bill while eating a sage hen in the Rocky Mountains surrounded by Indians.

The peace warrants of this district have become a thing of the past.

Quite an improvement has been made in the courting circles of our country since a young lady recently asked her sweet heart to marry her.

HUNTER.

DID YOU EVER THINK.

That you cannot be well unless you have pure rich blood? If you are weak, tired, languid and all run down, it is because your blood is impoverished and lacks vitality. These troubles may be overcome by Hood's Sarsaparilla because Hood's Sarsaparilla makes pure, rich blood. It is in truth the great blood purifier.

GENERAL SUMMARY.

Condition of the Different Crops Throughout the state.

CORN.

With one or two weeks more of seasonable weather in the northern part of the state, Georgia will harvest the largest corn crop ever made within her borders.

In almost every county in the state the crops is as good as the land can make. The only disasters have been some local hailstorms, and the overflowing and destruction of some of the river and creek bottoms in different sections during the latter part of June and the first of July. In south and southeast Georgia many farmers have put the land, from which the oat crop was taken, into "Mexican June" corn, which at this time promises a good yield. This is a very white corn, most excellent for bread and hominy, and much liked by the people of that part of the state. This large corn crop, flanked and supported as it is, by large crops of hay, syrup, meat, fruits, etc., convinces me that Georgia farmers are at last beginning to travel the road that leads to prosperity, independence and comfort.

Let us continue and increase our efforts in this direction, striving harder and harder each year to cut loose from our thraldom to cotton until we raise everything that we consume within our own borders and thus achieve absolute independence.

Corn and meat for sale, raised by Georgia farmers, have ceased to be objects of curiosity on the streets of our towns, and I hope by another year the importation of these articles will have entirely ceased.

COTTON.

There has been some gain in the condition of this crop since the last report, though there is still much room far improvement. The grass took such full possession and such strong hold during the late wet weather that it was with difficulty overcome and killed, and in many cases the stand of cotton was injured while getting rid of the grass. Until the last few days there has been too much rain for cotton, especially on sandy lands, and some cases of rust have been reported from south Georgia. On the whole, from the present outlook, I see no reason to change my opinion on the probable output of this crop, viz: three-quarters of last year's yield.

OATS.

Oats have been harvested in fair order all over the state, and have turned out astonishingly well, considering how late in the spring they were planted. This most valuable food for all stock should be planted much more largely. The acreage should be at least doubled, and more pains should be taken in preparing the soil and plowing them in.

WHEAT.

The yield of wheat this year has not been as satisfactory as was hoped for a month ago. The thinning out of the crop by the excessive cold of last winter made itself apparent when the grain was threshed out and measured. In most cases the yield has been disappointing, and in addition there has been some loss since cutting, by heavy and continuous rains.

RICE.

The reports from the rice crops are very flattering, and there will be an unusual amount of upland rice raised throughout the state. Many farmers, besides supplying their own wants, will have a surplus for sale. If small rice mills for cleaning the grain were put up in every county of lower and middle Georgia, it would lead to a large increase in the rice crop; many persons being deterred from planting on account of having no mill for cleaning rice within reach. A number of such mills are in operation, and it is said that they pay well.

HAY, MILLET, SORGHUM CANE, POTATOES.

These important, though minor crops, are all doing well throughout the state, with promise of excellent yield.

FIELD PEAS AND GROUND PEAS.

These crops, upon which so much of our meat supply depends, have been planted more largely than usual, and at present the outlook is good for an abundant yield of both.

FRUIT.

From Tybee to Tennessee the fruit trees and vines in this state are bending down with their loads of luscious fruit, and the growers and railroads are working night and day to get some of the crop to less favored sections. Long train loads of watermelons, grapes and peaches are daily going north on fast schedules to supply the people of the northern cities. The fruit industry is a growing one, and would increase more rapidly if the railroads could give lower rates of freight, which they probably will do before another crop is moved.

There are more canning and drying public plants than ever before, while every good wife in the state is busy preserving, canning, drying and turning into wine or vinegar all the fruit she can manage. In spite of this much of the fruit crop will be fed to hogs or go to waste.

There should be a canning or evaporating plant in every neighborhood, and fruits of every kind should all be saved. The world wants our canned or dried fruits, and is willing to pay a fair price for them; but we seem very indifferent about the matter.

The prices for watermelons, peaches, grapes, etc., are much lower than in former years, and the profits of the growers, therefore, will be much less than usual.

STOCK.

With the exception of a few reports of hog cholera, the condition of stock is good all over the state, and with no drawback this state will import but little meat next year. There is no reason why we should import any. Georgia should be a sellar of meat and not a buyer, and I believe the day is near at hand when such will be the case. When raising her own meat and bread, and manufacturing her own cotton crop in her own mills, she will indeed and in truth merit her name of "Empire State of the South."

average of the plant food of ordinary pea meal.

QUESTION 8.—What is the difference between fresh and well rotted manure? I mean how much more available is the latter?

ANSWER 8.—Thoroughly decomposed stable manure is about 20 per cent more soluble than fresh manure—the ammonia and phosphoric acid of the former being especially available. Another advantage is that in the process of decomposition and fermentation many weed seeds, which otherwise would prove harmful, are destroyed.

QUESTION 9.—What do you think of cottonseed meal as a food for cows?

ANSWER 9.—We have used cottonseed meal combined with hulls and other feed stuffs, with the greatest advantage.

From a bulletin of the Tennessee experiment station, we find that cottonseed meal is the most valuable of all the so-called waste products used as feed stuffs. It can be safely fed for long periods as much as five pounds per day per 1,000 pounds live weight, in the ration for cows giving milk. As the cow approaches the time for calving, the proportion of cottonseed meal should not exceed three pounds daily.

We do not think it advisable to feed more than five pounds of cottonseed meal daily to milch cows. For butter making it is not advisable to exceed three pounds daily. Many years of close observation elsewhere, as well as the results of recent experiments, induce the writer to believe that it is not safe to feed cottonseed meal as the sole addition to the daily allowance of coarse fodders, particularly during the three months preceding and the month after calving.

Cottonseed meal and cottonseed hulls should be far more extensively used as cattle food. These products of the cotton fields of the south will enable the farmers to maintain or to restore the fertility of their lands at the least cost of manures. By their proper use it is easy to obtain the highest economic value of the coarse fodders which are too often suffered to go entirely to waste, or if used at all scarcely pay for the labor of hauling them.

The following are safe rations for a dairy cow of 1,000 pounds live weight, and are made up in great part of cottonseed products:

1. Fifteen pounds cottonseed hulls, five pounds of cottonseed meal, and six pounds corn meal.

2. Fifteen pounds cottonseed hulls, four pounds of cottonseed meal, five pounds wheat bran, two pounds of corn meal.

3. Fifteen pounds cottonseed, eight pounds clover hay, five pounds cottonseed meal, two pounds corn meal.

4. Fifteen pounds cottonseed hulls, eight pounds corn fodder, three pounds cottonseed meal, three pounds wheat bran.

5. Fifteen pounds cottonseed hulls, eight pounds corn tops, five pounds cottonseed meal.

6. Fifteen pounds cottonseed hulls, six pounds clover hay, ten pounds of corn and oats, equal weights of each, mixed and ground together.

QUESTION 10.—I have a young mule 5 years old that was, until three weeks ago, in a thrifty condition. At that time her appetite began to fail and she seemed to be stiff all over. She would raise her head like she was choking. At present she is not so stiff, but unable to swallow and is swollen under the throat and what she eats comes back through her nostrils; it also runs a little mucous, yellowish and inclined to be watery. The mule has been with a horse that had something like distimper and the horse died from the disease, and not knowing the symptons of glanders decided to write you, so please give me symptoms of glanders, and if this is not glanders any information as to what it is.

ANSWER 10.—From the description of said mule I think it is a case of distemper, caused from being in contact with other stock affected likewise, being due to a germ and contagious. The swelling under the throat will terminate into an abscess.

The treatment is poultice the swelling and when soft use the knife, open up thoroughly and in a few days the mule will be all right.

The stiffness is only a symptom of the disease.

It might possibly be lockjaw, but I think not.

Respectfully,
CARNES & CARNES, V. S.,
Per. H. G. CARNES, V. S.

FERTILIZERS FOR RYE, TURNIPS AND OATS.

RYE.

Cotton seed meal, 500 pounds; acid phosphate, 400 pounds; muriate of potash, 100 pounds.

Apply broadcast 200 to 400 pounds per acre.

TURNIPS.

1. Acid phosphate, 500 pounds; nitrate of soda, 200 pounds; muriate of potash, 165 pounds; sulphate of lime, 135 pounds.

2. Cottonseed meal, 500 pounds; acid phosphate, 1,000 pounds; kainit, 300 pounds; sulphate of lime, 100 pounds.

Broadcast stable manure, with 500 pounds of either of the above, turn under, harrow until all lumps are broken. Then apply in the drill, either of the above at the rate of 500 pounds per acre.

OATS.

1. Cottonseed meal, 400 pounds; acid phosphate, 400 pounds; muriate of potash, 150 pounds; land plaster, 50 pounds.

2. Acid phosphate, 600 pounds; cottonseed meal, 800 pounds; kainit, 100 pounds.

Apply broadcast 200 to 500 pounds per acre.

PARKER'S HAIR BALSAM
Cleanses and beautifies the hair. Promotes a luxuriant growth. Never Fails to Restore Gray Hair to its Youthful Color. Cures scalp diseases & hair falling. 50c, and $1.00 at Druggists

FOLKS REDUCED From Mrs. N. J. HAYLEY, of Belleville, Kan.: "When I began your treatment 3 mos. ago I was so exhausted by ailments that I could not do any work. ADDRESS JONES OF BINGHAMTON, N.Y.

Nervousness is the Wail of the Nerves for Food.

AN INTERESTING INTERVIEW WITH A PROMINENT PHYSICIAN.

People With Weak, Flabby Nerves are the Ones who Suffer in this Hot, Sultry Weather. They may be Relieved by Building up Their Nerves With a Nourishing Nerve Food.

"What a weak-kneed individual."

The person referred to, did indeed look broken down, dispirited, and lifeless.

"What is the matter with him?"

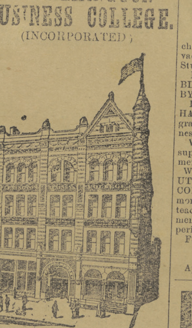

"I scarcely know. During the cool weather, he seems to be all right, and to have some life and a little ambition; but the moment the hot weather comes he simply wilts down, and seems to have neither strength nor vitality."

That explained the case. The man was in a generally run-down condition with not enough reserve force to resist the enervating effects of the season. His nerves were weak, unstrung as we say. The food he ate only partially reinforced his strength. The result was, he had constantly drawn on his reserve force so long that his nerves finally rebelled, and sounded the gong for him to stop. If the signal be heeded, and he takes steps to refresh, and build up his nervous system, he will recover; if not and the strain goes on, nothing can save him.

"There are a good many things recommended for this purpose. But the trouble with nearly all of them is, they are only tonics or stimulants. They apparently benefit, but it is only for a time; then the patient is worse than before. But there is one food for the nerves, I am happy to say in which I have the greatest confidence, which is in reality *a food.* It contains just those vitalizing principles, which impart new nerve force; it *builds up* the nerves, and by imparting to them new strength, gradually COAXES them back to a normal healthy condition. They are fortified against the hot weather, the man recovers his energy, his force and he walks with an elastic step. He drives his work with a will, where before it drove him. His spirits rise, and everything looks bright to him. This food is Dr. Williams' Pink Pills for Pale People, which are now known and used the world over; in North and South America, England and the English provinces, Canada, India, So. Africa, France. They are so widely known, and their excellent effects in nerve building so much talked about both here and abroad, that it is no. necessary for me to enlarge further on the subject. But I assure you the medical profession everywhere are very glad indeed to avail themselves of this nerve food, so scientifically compounded, and that they use it very largely in their practice."

Dr. Williams' Pink Pills contain all the elements necessary to give new life and richness to the blood and restore shattered nerves. They are for sale by all druggists, or may be had by mail from Dr. Williams' Medicine Company, Schenectady, N. Y., for 50 cents per box, or six boxes for $2.50.

THE LEXINGTON BUSINESS COLLEGE.
(INCORPORATED)

THE PRACTICAL SCHOOL OF THE SOUTH.
(Connected with the State A. & M. College.)

Highest Official Endorsement, the Governor of the Commonwealth, the President of the State College, and the Secretary and Treasurer of the Security Trust and Safety Vault Co., signing its Diplomas.

RECOMMENDED BY its army of successful students, whose salaries aggregate hundreds of thousands of dollars per annum.

REFERENCES. Scores of the leading professional and business men who are its friends and patrons. System of actual, practical business instruction used in every department, makes 2 months equal 4 by any other plan.

THE GREAT SOUTH AMERICAN
NERVINE TONIC
—AND—
Stomach AND Liver Cure

The Most Astonishing Medical Discovery of the Last One Hundred Years.
It is Pleasant to the Taste as the Sweetest Nectar.
It is Safe and Harmless as the Purest Milk.

This wonderful Nervine Tonic has only recently been introduced into this country by the Great South American Medicine Company, and yet its great value as a curative agent has long been known by the native inhabitants of South America, who rely almost wholly upon its great medicinal powers to cure every form of disease by which they are overtaken.

This new and valuable South American medicine possesses powers and qualities hitherto unknown to the medical profession. This medicine has completely solved the problem of the cure of Indigestion, Dyspepsia, Liver Complaint, and diseases of the general Nervous System. It also cures all forms of failing health from whatever cause. It performs this by the Great Nervine Tonic qualities which it possesses and by its great curative powers upon the digestive organs, the stomach, the liver and the bowels. No remedy compares with this wonderfully valuable Nervine Tonic as a builder and strengthener of the life forces of the human body and as a great renewer of a broken down constitution. It is also of more real permanent value in the treatment and cure of diseases of the Lungs than any ten consumption remedies ever used on this continent. It is a marvelous cure for nervousness of females of all ages. Ladies who are approaching the critical period known as change in life, should not fail to use this great Nervine Tonic almost constantly for the space of two or three years. It will carry them safely over the danger. This great strengthener and curative is of inestimable value to the aged and infirm, because its great energizing properties will give them a new hold on life. It will add ten or fifteen years to the lives of many of those who will use a half dozen bottles of the remedy each year.

CURES

Nervousness and	Broken Constitution,
Nervous Prostration,	Debility of Old Age,
Nervous Headache and	Indigestion and Dyspepsia,
Sick Headache,	Heartburn and Sour Stomach,
Female Weakness,	Weight and Tenderness in Stomach,
All Diseases of Women,	Loss of Appetite,
Nervous Chills,	Frightful Dreams,
Paralysis,	Dizziness and Ringing in the Ears,
Nervous Paroxysms and	Weakness of Extremities and
Nervous Choking	Fainting,
Hot Flashes,	Impure and Impoverished Blood,
Palpitation of the Heart,	Boils and Carbuncles,

Neuralgia,	Liver Complaint,
Pains in the Heart,	Chronic Diarrhœa,
Pains in the Back,	Delicate and Scrofulous Children,
Failing Health.	Summer Complaint of Infants.

All these and many other complaints cured by this wonderful Nervine Tonic.

NERVOUS DISEASES.

As a cure for every class of Nervous Diseases, no remedy has been able to compare with the Nervine Tonic, which is very pleasant and harmless in all its effects upon the youngest child or the oldest and most delicate individual. Nine-tenths of all the ailments to which the human family is heir, are dependent on nervous exhaustion and impaired digestion. When there is an insufficient supply of nerve food in the blood, a general state of debility of the brain, spinal marrow and nerves is the result. Starved nerves, like starved muscles, become strong when the right kind of food is supplied, and a thousand weaknesses and ailments disappear as the nerves recover. As the nervous system must supply all the power by which the vital forces of the body are carried on, it is the first to suffer for want of perfect nutrition. Ordinary food does not contain a sufficient quantity of the kind of nutriment necessary to repair the wear our present mode of living and labor imposes upon the nerves. For this reason it becomes necessary that a nerve food be supplied. This recent production of the South American Continent has been found, by analysis, to contain the essential elements out of which nerve tissue is formed. This accounts for its magic power to cure all forms of nervous derangements.

CRAWFORDSVILLE, IND., Aug. 20, '86.
To the Great South American Medicine Co.:
DEAR GENTS:—I desire to say to you that I have suffered for many years with a very serious disease of the stomach and nerves. I tried every medicine I could hear of but nothing done me any appreciable good until I was advised to try your Great South American Nervine Tonic and Stomach and Liver Cure, and since using several bottles of it I must say that I am surprised at its wonderful powers to cure the stomach and general nervous system. If every one knew the value of this remedy as I do, you would not be able to supply the demand.
J. A. HARDEE,
Ex-Treas. Montgomery Co.

Mr. Solomon Bond, a member of the Society of Friends, of Darlington, Ind., says: "I have used twelve bottles of The Great South American Nervine Tonic and Stomach and Liver Cure, and I consider that every bottle did for me one hundred dollars worth of good, because I have not had a good night's sleep for twenty years on account of irritation, pain, horrible dreams, and general nervous prostration, which has been caused by chronic indigestion and dyspepsia of the stomach and by a broken down condition of my nervous system. But now I can lie down and sleep all night as sweetly as a baby, and I feel like a sound man. I do not think there has ever been a medicine introduced into this country which will at all compare with this Nervine Tonic as a cure for the stomach."

A SWORN CURE FOR ST. VITUS'S DANCE OR CHOREA.

CRAWFORDSVILLE, IND., May 19, 1886.
My daughter, twelve years old, had been afflicted for several months with Chorea or St. Vitus's Dance. She was reduced to a skeleton, could not walk, could not talk, could not swallow anything but milk. I had to handle her like an infant. Doctor and neighbors gave her up. I commenced giving her the South American Nervine Tonic; the effects were very surprising. In three days she was rid of the nervousness, and rapidly improved. Four bottles cured her completely. I think the South American Nervine the grandest remedy ever discovered, and would recommend it to every one. MRS. W. S. ENSMINGER.
State of Indiana, Montgomery County, } ss:
Subscribed and sworn to before me this May 19, 1887. CHAS. M. TRAVIS, Notary Public.

CRAWFORDSVILLE, IND., June 22, 1887.
My daughter, eleven years old, was severely afflicted with St. Vitus's Dance or Chorea. We gave her three and one-half bottles of South American Nervine and she is completely restored. I believe it will cure every case of St. Vitus's Dance. I have kept it in my family for two years, and am sure it is the greatest remedy in the world for Indigestion and Dyspepsia, all forms of Nervous Disorders and Failing Health from whatever cause.
JOHN T. MISH.
State of Indiana, Montgomery County, } ss:
Subscribed and sworn to before me this June 22, 1887. CHAS. W. WRIGHT, Notary Public.

INDIGESTION AND DYSPEPSIA.
The Great South American Nervine Tonic

Which we now offer you, is the only absolutely unfailing remedy ever discovered for the cure of Indigestion, Dyspepsia, and the vast train of symptoms and horrors which are the result of disease and debility of the human stomach. No person can afford to pass by this jewel of incalculable value who is affected by disease of the Stomach, because the experience and testimony of thousands go to prove that this is the ONE and ONLY ONE great cure in the world for this universal destroyer. There is no case of unmalignant disease of the stomach which can resist the wonderful curative powers of the South American Nervine Tonic.

Harriet E. Hall, of Waynetown, Ind., says: "I owe my life to The Great South American Nervine. I had been in bed for five months from the effects of an exhausted Stomach, Indigestion, Nervous Prostration and a general shattered condition of my whole system. Had given up all hopes of getting well. Had tried three doctors with no relief. The first bottle of the Nervine Tonic improved me so much that I was able to walk about, and a few bottles cured me entirely. I believe it the best medicine in the world. I can not recommend it too highly."

Mrs. Ella A. Bratton, of New Ross, Indiana, says: "I can not express how much I owe to the Nervine Tonic. My system was completely shattered, appetite gone, was coughing and spitting up blood; am sure I was in the first stages of consumption, an inheritance handed down through several generations. I began taking the Nervine Tonic and continued its use for about six months, and am entirely cured. It is the grandest remedy for nerves, stomach and lungs I have ever seen."

Mrs. M. Russell, Sugar Creek Valley, Ind., writes: "I have used several bottles of The South American Nervine Tonic, and will say I consider it the best medicine in the world. I believe it saved the lives of two of my children. They were down and nothing appeared to do them any good until I procured this remedy. It was very surprising how rapidly they both improved on its use. I recommend the medicine to all my neighbors."

Ed. J. Brown, Druggist, of Edina, Mo., writes: "My health had been very poor for years, was coughing severely. I only weighed 110 pounds when I commenced using South American Nervine. I have used two bottles and now weigh 130 pounds, and am much stronger and better than have been for five years. Am sure would not have lived through the Winter had I not secured this remedy. My customers see what it has done for me and buy it eagerly. It gives great satisfaction."

EVERY BOTTLE WARRANTED.
Price, Large 18 ounce Bottles, $1.25. Trial Size, 15 cents.
